MUNICIPAL REGULATIONS.

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city pauper account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county pauper account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the City Auditor on or before the second day of the month.

If approved by him and by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the City Government.

The regular monthly meetings of the City Government occur on the second Tuesday of each month.

JAMES O. LYFORD,
City Auditor.

Mayor Woodworth's Inaugural Address.

GENTLEMEN OF THE CITY COUNCIL :

It would be ungracious in me not to express my deep appreciation of the confidence which the citizens of Concord have shown by trusting to me the highest executive office in their gift. But I can truly say that my realization of the anxieties and perplexities of the office has been so great that I have never had any ambition to assume such responsibilities. Nevertheless, I did not feel at liberty to refuse to obey the call of my fellow-citizens; and in assuming the duties of the mayoralty of our beloved city, I can but promise to bring to it all the ability and energy that in me lie, only regretting that I have not a much greater aptitude for the requirements of the office.

It is with a profound sense of our dependence on Almighty God for the greatest blessings of life, that I enter upon the duties of so important an office,—and in the responsibilities that are shared by the strong, honest, and conscientious men constituting the board of aldermen and common council, may we ever act for the best interests of the city which we serve, remembering always that whatever honor we gain is measured only by the honor we bring to the discharge of our duties.

FINANCE.

The examinations of the auditor of the city and his compilation of the city report have proceeded far enough to enable him to give some interesting figures pertaining to the city's indebtedness. These figures may be varied slightly by the adjustment of the accounts of the several departments, but in the main are correct.

What is known as the municipal funded debt of the city remains the same as last year, no bonds maturing in 1896.

The municipal debt not funded has been reduced \$19,550, by the payment of outstanding notes.

The available assets of the city are reduced \$25,000, by the settlement with the bondsmen of Albert I. Foster.

The uncollected taxes for the years 1893, 1894, and 1895 are but \$1,148.87, George A. Foster having collected, including interest, \$15,931.55 of those uncollected at the date of his appointment.

The water debt has been reduced \$10,000, by the payment of that amount of maturing bonds.

The precinct debt has been reduced by the payment of \$8,000 of the state-house bonds, closing out this obligation of the city incurred many years ago.

The floating debt of the precinct has also been reduced by the payment of \$10,000 of outstanding notes.

The school-district debt has been reduced by the payment of \$9,000 of Union School-district bonds, and \$500 of the bonds of School-district No. 20.

After taking care of the loss occasioned by the settlement of the city with the bondsmen of Albert I. Foster, the net reduction in the aggregate indebtedness of the municipality, the precinct, the school-districts, and the sewer preeincts, is about \$33,000.

The following recapitulation is substantially correct, and will only be varied by the consideration of outstanding coupons due, but not presented, and by accrued interest not yet due.

RECAPITULATION.

Net regular municipal debt above assets	\$73,019.97
Net precinct debt	727,021.67
Net school-district debt	93,330.00
Net Penacook sewer debt	19,924.17
Net West Concord sewer debt	15,109.93
Net East Concord sewer debt	2,185.00
Aggregate indebtedness over available assets, January 1, 1897	930,590.74
Aggregate indebtedness over available assets, January 1, 1896	963,960.64
Decrease during the year	\$33,369.90

It must be very gratifying to every tax-payer of the city to see this most satisfactory reduction of the municipal indebtedness during the past year. It shows that the affairs of the city have been well conducted, and that the system employed in their management is as good as can be desired, in its practical results.

PERMANENT IMPROVEMENTS.

In looking over the addresses of my predecessors, it has been very gratifying to see how completely have been carried out the various wishes they have expressed for the improvement of our city. There are, indeed, but very few changes for the better, that they have recommended, which have not already been made. About twenty-five years ago, when Concord had attained considerable strength as a well-conducted municipality, there was begun a rather ample plan of permanent improvements, which have been carried on with a steadiness and persistency that have made our small city both substantial and beautiful. All this advantage which we now possess has been acquired not without large expenditures; and, from the time when it was necessary for the city to raise the large sum of one hundred and fifty thousand dollars to be continued as the capital of the state, a great deal of money has been expended for the improvements generally demanded by our citizens.

Among the first improvements were the water-works and the system of sewerage, the central fire station, and the iron bridges at Penacook and East Concord, and from that time on, the concession of betterments has had little interruption.

The ward six building, the fire stations at Penacook, East Concord, and West Concord; the Walker, Chandler, Franklin, Kimball, High, and Cogswell schools; the purchase of valuable land for the federal and state library buildings; the new police station, the lower bridge, the new iron free bridge, the wall and gateway of Blossom Hill cemetery, and the park improvements, including laying out of White street, are the principal objects which have aggregated a very large sum of money. All these works, substantial and finely built, are now our permanent possessions. We have them, and we must main-

tain them; there is no choice in the matter; and it is extremely doubtful, if the opportunity could be given to our citizens to go back to the time when we were without all these things, if any considerable number of people could be found who would for a moment entertain any such desire. We all believe that for the money laid out in public buildings, we have received its full value in the additional advantages which we have gained.

PARKS.

We are so fortunate as to have had the gift of two parks, which have added greatly to the beauty and comfort of our city. Particularly since the street railway has extended to White park, it has been most gratifying to see the great number of men, women, and children who have made use of the shady paths and the quiet resting-places so well arranged for their enjoyment. The children could be counted by hundreds who have been made happy by feeding the swans that were generously given by a lady who has not long been a resident of the town; and if her example could be followed by others in gifts that would give as great pleasure, it would be a happy thing for all.

Considering the amount of the appropriations that have been made for all the parks, the results have been surprisingly good. There is nothing that gives to a stranger a better impression of a city than a piece of land, however small, that is beautiful and adorned for the public good, nor is there anything more thoroughly appreciated by the average citizen of good, wholesome taste.

The building of a permanent fence for the south side of White park has been recommended by one of my predecessors; and that is a matter which it would be especially gratifying to me to have done, only it should extend along the east side as well. It was one of the conditions of the gift that the land should be fenced, and the temporary railing that was necessarily put up in the beginning must be replaced by a substantial fence as soon as it can possibly be provided for. When the regular appropriations are called for, for both White and Rollins parks,

it is to be hoped that they will be within limits that can be granted.

TAXES.

While the present tax rate, \$2.40, is a high one, the taxes of Concord are not high because of the low assessed valuation of a portion of the valuable property. If our assessors could get near the true value of the business property, merchandise, and money at interest, I have no doubt that the inventory would be so increased as to lower the rate to a very great degree. As an illustration of what I mean, a case can be mentioned of a piece of property that is on the tax-list at \$12,000 which recently sold for \$30,000.

Instead of trying to reduce the valuation of property to the very lowest point, there should be a disposition on the part of all, as there undoubtedly is on the part of many, to aid the assessors in getting at a true valuation. Every man should be as just in dealing with his city as with individuals. His public spirit should be great enough to insure this.

The burden of taxation is always most keenly felt by people of moderate circumstances, who have invested the largest part of their accumulations in modest homes. The frugal, thrifty, and industrious people, those who save their earnings to buy and support homes, constitute a large and most valuable part of our population. They should have absolutely fair dealing; and in order to secure this and to give perfect justice to all, those who have more property should be taxed in proportion to the full value of their possessions. It is just here that the assessors need to exercise not only sagacity and good business judgment, but above all, a spirit of fairness and impartiality. They should act as a body, and the fixing of the valuation should not be determined by the individual member of the board elected from the ward where the valuation is made. Surely this is a city where taxes ought to be cheerfully borne, we have so much to show for the expenditures of the past. I do not know that Concord will ever be a place where one can live especially cheaply; but since it combines so many advantages of city and country, has so high a moral tone, and pro-

vides so thoroughly for the educational needs of its children, it should attract in the future, as it has in the past, many who are looking for the most desirable kind of a community to dwell in, as well as for a suitable place to engage in business or manufacturing.

CHARITIES.

For scores of years, Concord has taken the lead in organizations of a helpful and charitable nature, and it has naturally become the centre of many institutions devoted to different kinds of people needing assistance. We have cause for just pride in the work that has been done for more than eighty years by the Concord Female Charitable society, the first one of the kind in New England and said to be the first in the United States. With such an influence in our midst, it is no wonder that every church in the municipality has its charitable organization which tries to reach every needy and deserving person. We have two homes for children, the Rolfe and Rumford Home for girls born in Concord, and the Orphans' Home near St. Paul's School, which was the first one in New Hampshire to care for needy little ones; and two others for adults, the Centennial Home for the Aged, and the Odd Fellows' Home. We are not called upon for direct assistance by any of these, but they are a great blessing in our midst both to those who give and receive, and they have our full sympathy.

For the Margaret Pillsbury hospital an appropriation of two thousand dollars a year has been made in the past, as is most suitable, for the support of free beds, and doubtless you will be asked to appropriate the same amount.

PUBLIC SCHOOLS.

Our public schools have attained a very high degree of practical efficiency, and each year sees some advance over the year before, as must be the case where there is healthy life. We take very young children and give them the superintending care of thoughtful and experienced teachers, where every influence is directed towards the moral and mental development of the individual pupil,—but where consideration for others is

also a strong principle. From the beginning with the smallest children to the end of the course, it is the purpose of our superintendent and teachers to train our pupils to become good citizens. In no other city of New Hampshire are the children better fitted for college and technical schools than in Concord, while we give our pupils a far better preparation for the practical duties of life in the instruction they here enjoy in wood-work, sewing, and cooking. There is a great call, not only in our own but in foreign countries, for an effort to invest manual labor with the true dignity that should belong to all honest work, and if there is any way to do this so good as to have manual training put into our schools, as a supplement to, and on a level with, intellectual work, I do not know what it is.

Whatever training there is in our schools to make our boys and girls skilful with their hands and willing to use them, commands my hearty approval. Yet, greatly as our expenses have increased in the past ten years, like those of all the other cities of the land, the cost of education per capita is smaller than in several of the towns where fewer advantages are given. Probably no intelligent or progressive citizen would wish the present educational standard to be lowered, but in this department as in all others, it is greatly to be desired that the appropriations asked for be made as low as is possible, consistent with good and effective school management.

BOARD OF HEALTH.

It is a matter for congratulation that there is nothing but good to say of the work of the board of health and their efficient sanitary officer. Under them the various sanitary regulations of the city are thoroughly and quietly carried out, and this important part of the public service is well performed.

CEMETERIES.

There is no point of interest that appeals more universally to our people than the care of our cemeteries, and nothing gives us more sincere satisfaction than to see these hallowed resting-

places of our beloved dead grow more beautiful as the years go by. Fifteen years ago, there were but seven trust funds in possession of the city for the improvement of any of the cemeteries, but now there are ninety-two, a fact that testifies to a most laudable and growing interest in their care and adornment. It would be a gracious act if some benevolent heart should feel moved, in the near future, to erect in Blossom Hill cemetery a tasteful and appropriate chapel which is so much needed for the use of those who, having severed their ties with Concord, bring back their dead for interment here. If the financial condition of the city should warrant such an expenditure, I should feel moved to recommend the building of such a chapel, since those who know the needs best feel that it is a matter which should be promptly attended to. The board of cemetery commissioners feel that a larger appropriation is needed than was given last year, and their report closes with these words: "We cannot think for a moment that any good, respectable citizen ever thinks that anything is too good for the dead, or feels that taxation is burdensome owing to too large an appropriation for this department."

STREETS.

Probably, very few people realize the extraordinary length in miles of the streets and highways that we possess, and that must be kept in order. The town of Concord is nearly eight miles square, and six miles square is considered a large township. The last census gave 300 miles of streets and highways in Concord, while Manchester had but 147 (recent reports give 201), Nashua 80, and Dover 65 miles. The large cities of Lowell and Worcester had but 104 and 145 miles respectively, and even the great city of Boston is credited with but 408 miles of streets. This shows something of what we have to contend with comparatively in our efforts to maintain good streets and roads, and it will be well for all who have been disposed to complain that they have not all been kept in the best condition, to reflect carefully upon the stubborn facts just quoted concerning our actual state of affairs. The regular and fixed expenses

of the highway department, such as ploughing snow from the sidewalks and sanding icy places, keeping clear the catchbasins, carrying on the night cleaning of the business portions of the town, and the general cleaning of spring and fall, average about nine thousand dollars a year. All this, like many other things in life, is a necessary requirement, but has nothing to show for it.

No material interest of our city appeals more strongly to me personally than this matter of good roads, and it seems to me absolutely essential to keep those which we now have in as good condition as at present; but with the high tax-rate now required it would seem wise to keep at the very minimum appropriations for new streets, and for permanent improvements in this particular direction.

We labor under the great disadvantage of not having very good material for road building, the crushed granite, which has been mostly used, wearing away into very fine dust that is bad enough when dry, but is worse when it turns to mud in rainy weather. It is to be hoped that future experiments may bring to light something better in the way of road material that can be used to advantage on our streets. It will probably be well for the city, when it can be afforded, to buy a portable stone-crusher to save hauling stone the long distances now necessary from the crusher to the points where it needs to be used.

STREET LIGHTING.

The street lighting department shows a great increase in expenses during the past ten years, and I have no hesitation in declaring Concord to be now one of the best lighted of cities. This condition of things may be regarded as a great luxury, but it has come to seem to every one a strict necessity.

WATER WORKS.

There are water-works bonds to the amount of \$680,000, which are properly put down as a liability of the city, but they constitute in reality a valuable property, which is not only self-sustaining, but which will undoubtedly return a sufficient revenue

to meet the bonds as they become due, ten thousand dollars having been discharged the past year. It is important for all our citizens to recognise the fact that the water works are owned by the property owners of Concord, and that the officials are but our agents. The superintendent is a man to be commended for the thoroughness and impartiality of his management of this important department. The introduction of meters is increasing as fast as possible, and in using water that is measured every one pays for what he uses, so that there can be no unfairness. It is not expected that the revenue will be increased by the universal use of meters, but it is certain that a great deal of waste will be prevented, and that is a matter of the utmost importance to us all. We are favored now with higher water in Penacook lake than for many years, but we cannot tell how soon it may be greatly decreased in quantity by want of rain, and we need to prevent having it wantonly or thoughtlessly wasted. Few, probably, realize the great amount of gratuitous service given to the city by the water commissioners, and it is doubtful if any other city in the country has received anywhere near as much of this gratuitous service as Concord has in this department. We are to be congratulated that in two branches of so much importance as the water-supply and schools, we are entirely free from any political influence or interference.

SEWERS.

Next to the abundant supply of good water follows the necessity of providing for carrying it off by means of proper sewerage. Two years ago, my predecessor, in his inaugural address, indicated the pending need of the near future as follows: "We shall be asked to enlarge the central sewerage system during the year at a large expense. There will undoubtedly be a demand for the extension of the South End sewer, from its terminus at the junction of Allison and South streets into and through the Bow Brook valley, which is expected to meet the growing needs of the territory west of Bow Brook and that near the jail and west of Auburn street." Petitions for this extension were brought before the board of

aldermen and referred to the sewer committee, before which hearings were held, and the matter was referred to the incoming board. Therefore this important subject will come up, and you will be required to take action upon it. There is no doubt of the need of this extension. As I understand it, there are forty-five houses, besides the Odd Fellows' home, the jail, and Bow Brook school with eighty or more children, in great need of sewer accommodations. Wherever children go to school in large numbers, it is essential that all sanitary conditions should be so good as to offer no menace to good health. If an appropriation for this sewer extension should be granted, it might be met by a twenty-year loan, which could doubtless be carried at the rate of three and one-half per cent., and, in my judgment, long before the expiration of that time, the taxable property would be so increased, as a result of the building of the sewer, that the city would gain more than its cost.

ENGINEERING DEPARTMENT.

The engineering department, a comparatively new one, is indeed most important, embracing as it does all the work on public grounds, the care of bridges, the laying of water-pipes and sewers, the establishing of grades, and the care of all plans of public works and improvements. I am informed by the city engineer that one of the bridges over the Contoocook at Penacook will need to be replaced in the near future by a new and safe structure.

POLICE.

Good order and protection of person and property are demanded of every municipal government. So far as I know, this city has been very fortunate in its police officers, and I hear no complaint of inefficiency on the part of any one of the force. Up to the time that Concord had between 14,000 and 15,000 inhabitants, a city marshal and four assistants constituted our regular police force. About ten years ago this force began to be increased considerably, and during the construction of the Sewall's falls dam, when a good many foreigners

were employed, it was only acting the part of prudence to employ a sufficient force to ensure safety and good order. It is always easier to increase than to diminish, and the police commission do not see the way clear to reduce the force when the public demand more rather than less service of this kind. The last census shows that Concord had nearly the smallest per cent. of police force to the number of inhabitants of any town or city in the United States, and as one policeman to one thousand inhabitants is considered a low average, it will be seen that we still maintain a considerably less force than comes within that limit. The request of the city marshal for pneumatic tires for the ambulance is one that seems to me should be granted, since too much care cannot be taken to ease those suffering from accidents or illness, but I am of the opinion that we cannot now afford a stable, which is asked for, desirable as it would be if conditions were different.

FIRE DEPARTMENT.

Our fire department is now planned on a scale that would be adequate to the needs of a considerably larger town than we are at present. During the last two years twenty-nine new tappers have been added, making the whole number connecting with houses of firemen, forty-five, and eight new fire-alarm boxes have been put in. The chief asks for three more to still further increase the efficiency of the department. The new battery service is a great improvement and is not only a great saving of expense, but it is supposed to be always in working order. The past year has been marked by but one large fire, the burning of the Prescott Piano factory; and the promptness with which calls for assistance have been met by the department has resulted in the extinguishing of such fires as it has been called upon to attend to, so that no conflagrations have occurred, with the single exception mentioned. Judging as well as I can from the necessarily superficial knowledge which I have been able to obtain, I am impressed with the belief that the chief of the department desires to keep the expenses as low as may be, and that he will do his best to

maintain its efficiency with such appropriations as you may think it wise and necessary to set apart for this department.

LIQUOR EVIL.

The liquor evil will always be with us while human passions remain as they are, and I have always been an interested observer of the practical effects upon this evil, of the different policies pursued in dealing with it. It has seemed to me that the prohibitory law was the best one for New Hampshire, since it can be thoroughly enforced in many towns, and in all of them the authorities can work towards that end. Many people are clamoring for a law that can be lived up to in this matter of intemperance, but it has always seemed to me an absurdity to limit a law to what can be absolutely enforced. "Thou shalt not" is the beginning of each prohibitory command of the Moral Law, although each one has been continually broken since it was given forth. Following that model, we do well to enact the strongest law that we can have, and then we want to work towards the best possible enforcement of that law. I have no quarrel to make with those who believe honestly in a license law. If I knew that such a law would certainly lessen the evil of drunkenness, I should doubtless favor it, since that is the end which I most desire, but I have never yet been convinced of its value as a policy for the suppression of that greatest of evils.

INDEMNITY BONDS.

In the light of recent experience, I would recommend, in every case where a bond is required from officials handling public funds, that the same be secured from some one of the fidelity insurance companies. The advantage to the official would be that he is freed from personal obligation in seeking bondsmen, and to the city that it would have the security of corporate rather than individual guarantee, as well as the supervision of the company over its insurance.

PUBLIC LIBRARY.

It cannot by any one be called invidious if I state here that in no department of progress have there been such strides made as in the improvements at the public library. The new and improved methods of cataloguing and shelving of the books have entailed vast labor upon the librarian and her assistants, for it was only by their unremitting help that the great work of making the card catalogue was reduced to one year, instead of requiring the estimated two years for its accomplishment. If the public would learn briefly and completely what has been done at the library, they should read with great care the librarian's report to the trustees. The most cordial spirit of encouragement to come and use the books and periodicals, either in the reading-room or at home, is apparent to all, and while the rules are thoroughly enforced, as they must be for true efficiency and for the best good of all, every effort is made to secure to each patron exactly what he seeks. Just what the spirit of the institution is can be shown by a few words from the librarian's report, which I gladly quote: "The joy the librarian feels when a child aspires or can be led to something better in his reading, is as keen as that felt by parents or teachers over an upward step, and it is an equally great pleasure to have an adult seek and find on our shelves the literary tools he craves to make him a cleverer artisan or a more profound thinker." In this department of public growth, it is to be hoped that the usual appropriation will be cheerfully granted.

PETITIONS.

I wish to speak a word of caution about signing petitions for public improvements, because it is a notorious fact that many do this without care or thought of what they are signing. One's name should never be lightly given, and above all things, one should never sign a petition without reading it carefully, and deciding that it is in behalf of a cause which he desires to promote. If this should always be done, petitions would mean more than they do at present, and they would be of far more value to the ones to whom they are presented, as indicating the

exact wishes of their constituents. It may be added that they would not be so numerous as they now are.

With all possible earnestness I want to urge upon the heads of departments that they manage the appropriations set aside for them, with the greatest economy and care. It is by no means necessary to spend a certain sum of money because it has been appropriated, and any saving that can be made without injury to the interests entrusted to the care of public guardians will be regarded as an evidence of prudence and economical management.

One of the most gratifying characteristics of the great national campaign of last year was the intense spirit of unselfish patriotism that was shown all over the country. Men everywhere were more anxious for the well-being of the whole country than for their own individual good. We heard much about honor, integrity, and honesty as the very foundation upon which the safety and continuance of our republic rest. And it is just such a spirit of loyalty to the public good of this city that I should like to see actuating every man who has been chosen as a public servant to help administer municipal affairs. We shall have many commonplace duties to perform, but in the aggregate they will all be important as parts of a great whole, and we cannot be too careful to bring to their consideration sincere purpose and conscientious action.

Ordinances and Joint Resolutions

PASSED DURING THE

YEAR ENDING JANUARY 26, 1898.

CITY OF CONCORD.

ORDINANCES.

AN ORDINANCE PROVIDING FOR THE FURNISHING OF OFFICIAL BONDS BY CITY OFFICERS.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. Bonds shall be required of the following city officers as follows: City treasurer, twenty-five thousand (25,000) dollars; tax collector, twenty-five thousand (25,000) dollars; city auditor, five thousand (5,000) dollars; city clerk, five thousand (5,000) dollars; commissioner of highways, three thousand (3,000) dollars; city liquor agent, two thousand (2,000) dollars; city marshal, five hundred (500) dollars; assistant city marshal, five hundred (500) dollars.

SEC. 2. Bonds required of the foregoing officers shall be those of surety companies licensed by the insurance commissioner to do business in this state, if in terms such bonds comply with the requirements of the city ordinances and the laws of this state and the board of mayor and aldermen are satisfied of the financial ability of the company as such surety; otherwise, a bond may be given in double the amount specified in the foregoing section, with sureties to the satisfaction of the board of mayor and aldermen; provided such sureties are owners of unencumbered real estate to the value of the penal sum of said bond.

SEC. 3. All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance shall take effect upon its passage.

Passed January 26, 1897.

AN ORDINANCE FIXING THE SALARY OF THE POLICE COMMISSIONERS AND IN AMENDMENT OF SECTION 13 OF CHAPTER 37 OF THE REVISED ORDINANCES.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. Each member of the board of police commissioners shall receive in full for his services the sum of fifty dollars per annum, to be paid to him at the expiration of each year during his term of office.

SEC. 2. Section 13 of Chapter 37 of the Revised Ordinances is hereby repealed, and this ordinance shall take effect upon its passage.

Passed March 9, 1897.

AN ORDINANCE ENLARGING SCHOOL DISTRICT NO. 20, STREET-LIGHTING PRECINCT.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That School District No. 20, Street-lighting Precinct, shall be, and hereby is, enlarged by the addition thereto of the territory on the southwesterly side of said precinct, beginning at the intersection of the southerly line of said precinct, with Main street; thence by said Main street to the intersection of the Borough road, so-called, with Main street near the southeast corner of land owned by John Chadwick; thence running westerly by said Borough road to the land of A. C. Bean; thence southerly and westerly by land of said Bean and Amos C. Elliot to the road leading from said Borough road to the Claremont railroad near the Ferrin ledge; thence southerly by said road to the southeast corner of the farm of the late Rufus D. Scales; thence westerly and northerly by said farm to the land of Elmer E. Welch; thence westerly and northerly by land of said Welch and land of Frank P. Davis to the Borough road, before mentioned; thence by said road to the southwest corner of the farm of the late Martha J. Morrill, meaning to include in the addition all the land included between the above described line and the present boundary of said Street-lighting precinct.

SEC. 2. This act shall take effect upon its passage.

Passed March 9, 1897.

AN ORDINANCE PLACING CERTAIN LANDS UNDER THE CONTROL OF
THE BOARD OF WATER COMMISSIONERS.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That all the land owned by the city of Concord, formerly a portion of the city farm, lying on the northerly and westerly sides of Lake street and the highway leading in continuance thereof along the shore of Forge pond to the land purchased by the city of Concord through its board of water commissioners from Mary C. Rowell, be, and the same hereby is, placed under the management and control of the board of water commissioners.

SEC. 2. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed, and this ordinance shall take effect upon its passage.

Passed March 9, 1897.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY
TO BE RAISED FOR THE ENSUING FINANCIAL YEAR FOR THE USE
OF THE CITY.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within said city the sum of fifty-seven thousand dollars (\$57,000), to defray the necessary expenses and charges of the city for the ensuing financial year, which, together with the sums that may be raised by taxes on railroads and from other sources, shall be appropriated as follows:

For payment Memorial Arch bonds	\$5,000.00
For payment of interest	4,000.00
For support of the city poor	700.00
For incidentals and land damages, including expense of indemnity bonds for city officers	5,000.00
For committee service	1,410.00
For printing and stationery	2,500.00

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the street sprinkling precinct of said city the sum of four thousand dollars (\$4,000) to defray the necessary expenses and charges of the street sprinkling precinct for the ensuing financial year, which shall be appropriated as follows :

For sprinkling streets, \$4,000.

Passed March 30, 1897.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE CITY WATER PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the water precinct of the city the sum of six thousand dollars (\$6,000) to defray the necessary expenses and charges of the water precinct for the ensuing financial year, which shall be appropriated as follows :

For water for hydrant service, \$6,000.

Passed March 30, 1897.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED FOR THE ENSUING FINANCIAL YEAR FOR THE SUPPORT OF SCHOOLS.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within said city the sum of thirty-four thousand seven hundred and five dollars

(\$34,705) for the support of schools for the ensuing financial year, which, together with the income from the Abial Walker fund, shall be appropriated and divided among the several school districts according to the valuation thereof.

Passed April 13, 1897.

AN ORDINANCE AUTHORIZING THE MAYOR AND COMMITTEE ON LIGHTING STREETS TO MAKE A CONTRACT WITH THE CONCORD LAND AND WATER POWER COMPANY.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That the committee on lighting streets, with the mayor added, be, and hereby are, authorized to sign a contract on behalf of said city, with the Concord Land and Water Power Company, for twelve (12) police lamps, more or less, of twenty-four (24) candle power, four thousand (4,000) hours each per year, all night, and every night, same to be lighted by the Electric Light Company, and extinguished by the police, at fifteen dollars (\$15) per annum per light. Said contract to date from the earliest possible time in which above lights can be properly equipped by the company, and to continue for five (5) years, and all lamps and material, including repairs and maintenance, be furnished by the company.

Passed April 13, 1897.

AN ORDINANCE REGULATING THE OPENING AND OBSTRUCTION OF STREETS AND SIDEWALKS.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. The authority now vested in the mayor and board of aldermen to grant licenses to persons to dig up, obstruct, or encumber the streets, sidewalks, and highways of the city, is herewith conferred upon the commissioner of highways, under such rules and regulations as he shall establish.

SECT. 2. No person shall break or dig up the ground or stones in any street or sidewalk, or erect any staging for building, or place or deposit any stones, bricks, timber, or other building materials thereon, without first obtaining a written

license from the commissioner of highways and complying in all respects with the conditions of such license.

SECT. 3. Any person violating any of the provisions of this ordinance or who fails to comply with the rules and regulations established by the commissioner of highways, shall be fined a sum not exceeding ten dollars (\$10.00) for each offense.

SECT. 4. This ordinance shall take effect upon its passage.

Passed April 13, 1897.

AN ORDINANCE MAKING AN ADDITIONAL APPROPRIATION FOR THE COMPLETION OF THE WALL AT OLD FORT CEMETERY.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That the sum of one hundred and seventy-four dollars (\$174) is hereby appropriated in addition to the sum already appropriated for the completion of the wall at Old Fort Cemetery, and that the same be paid out of any money in the treasury not otherwise appropriated.

Passed April 13, 1897.

AN ORDINANCE DEFINING THE RIGHTS AND DUTIES OF THE JOINT STANDING COMMITTEE ON LANDS AND BUILDINGS RELATIVE TO THE CARE AND RENTING OF THE VARIOUS CITY BUILDINGS, AND IN AMENDMENT OF CHAPTER 37, SECTION 10, OF THE REVISED ORDINANCES RELATING TO THE SALARY OF THE CITY MESSENGER.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. The joint standing committee on lands and buildings shall have the superintendence of all city buildings and all land owned by the city, excepting such as is under the supervision of a commission, and shall have the renting of all buildings, halls, or grounds for public, social, or charitable purposes. They shall charge for "City Hall," when used for social purposes, two dollars and fifty cents (\$2.50) per hour; for "Ward rooms," when used for social purposes, one dollar (\$1.00) per hour. For public, charitable, or other purposes, they shall charge such rate as they shall deem just under the circumstances of the case.

SECT. 2. In case any part of any city building or any of the

heating or sanitary apparatus or other fixtures contained therein become, through accident or other cause, suddenly unfit for use, it shall be the duty of said committee to take all necessary means to repair the same and report such action to the next regular meeting of the city council.

SECT. 3. The city messenger shall receive for services performed when the City Hall is used in the evening for the above purposes, the sum of twenty-five cents (\$.25) per hour until midnight, and the sum of fifty cents (\$.50) per hour thereafter.

SECT. 4. So much of the provisions of chapter 37, section 10, of the Revised Ordinances as are inconsistent with this ordinance, and all other ordinances and parts of ordinances that are inconsistent with this ordinance, are hereby repealed.

SECT. 5. This ordinance shall take effect upon its passage.

Passed April 13, 1897.

AN ORDINANCE AUTHORIZING THE COMMITTEE ON LANDS AND BUILDINGS, WITH HIS HONOR, THE MAYOR, ADDED, TO MAKE A CONTRACT WITH THE CONCORD LIGHT AND POWER COMPANY FOR CONCORD GAS LIGHT COMPANY FOR GAS LIGHTS.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That the committee on lands and buildings, with His Honor, the mayor, added, be authorized, and the same hereby are authorized and instructed, to contract with the Concord Light and Power Company for the Concord Gas Light Company, to furnish gas at the rate of \$1.50 per thousand cubic feet, and to furnish and maintain Welsbach burners on all fixtures in the following buildings and offices: City Hall, Public Library, all fire department buildings, and all city buildings and city offices.

Passed April 13, 1897.

AN ORDINANCE PROVIDING FOR THE CONSTRUCTION OF AN EXTENSION OF THE SOUTH END SEWER, PROVIDING MEANS FOR DEFRAYING THE EXPENSE THEREOF, AND AUTHORIZING AN ISSUE OF BONDS THEREFOR.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That for the purpose of defraying the expense of constructing the sewer authorized by vote of the board of mayor

and aldermen May 28, 1897, bonds of said city shall be issued to an amount not exceeding (\$25,000) twenty-five thousand dollars, in the manner and for the amounts hereafter specified.

SECT. 2. Bonds of said city shall be issued for the purposes aforesaid, signed by the mayor and the city treasurer, and countersigned by the city clerk, and shall in all respects comply with the provisions of the "Municipal Bonds Act of 1895." Said bonds shall be dated July 1, 1897, numbered consecutively from one to twenty-five inclusive, and shall be for the sum of one thousand dollars each, and shall be due and payable on the first day of July, 1917. Said bonds shall be payable to the bearer with interest at a rate not exceeding three and one-half ($3\frac{1}{2}$) per centum per annum, payable semi-annually on the first days of January and July in each year, upon the presentation of the coupons attached to said bonds respectively.

SECT. 3. The treasurer is hereby authorized to procure proposals for the sale of the bonds hereby authorized, and such bids as seem for the best interest of the city shall be accepted by him, provided the same are approved by the finance committee.

SECT. 4. That all of said bonds owned by citizens of said city of Concord shall be exempt from taxation as provided in Chapter 55, Section 14, of the Public Statutes.

Passed June 8, 1897.

AN ORDINANCE AUTHORIZING THE USE OF CERTAIN FUNDS OF
THE GAS AND SEWERAGE PRECINCT FOR THE CONSTRUCTION
AND MAINTENANCE OF SEWERS.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That the unexpended balance of the appropriations for the gas and sewerage precinct for the year 1896, viz., the sum of six hundred and fifty-one dollars and forty-one cents (\$651.41) and the miscellaneous receipts credited to the account of said precinct for the year 1896, viz., the sum of sixty-nine dollars and forty-two cents (\$69.42), a total of seven hundred and twenty dollars and eighty-three cents (\$720.83), are hereby appropriated for the construction and maintenance of sewers of said precinct.

Passed September 14, 1897.

AN ORDINANCE MAKING AN ADDITIONAL APPROPRIATION FOR THE
CARE AND MAINTENANCE OF BLOSSOM HILL CEMETERY.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That the sum of twenty-seven hundred dollars (\$2,700.00) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated as an additional appropriation for the care and maintenance of Blossom Hill Cemetery.

Passed September 14, 1897.

AN ORDINANCE MAKING AN ADDITIONAL APPROPRIATION FOR
ROADS AND BRIDGES.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That the sum of three hundred dollars (\$300) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated, for roads and bridges, for the construction and cleaning of catch basins.

Passed October 12, 1897.

AN ORDINANCE MAKING AN APPROPRIATION FOR CHANGE IN THE
LOCATION OF CONCORD STREET R. R. IN WARD ONE.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That the sum of six hundred and twenty-five dollars (\$625) be, and the same is hereby, appropriated for the purpose of meeting the expense incident to the carrying out of an agreement with the Concord Street R. R. for the change in the location of their track on Main street in Ward One, and that the same be charged to incidentals.

Passed October 12, 1897.

RESOLUTIONS.

A JOINT RESOLUTION IN RELATION TO PAYING SALARIES, PAY-ROLLS, AND RENTS.

Resolved by the City Council of the City of Concord, as follows:

That the mayor be and hereby is authorized to draw his warrant on the city treasurer for the payment of all salaries, pay-rolls, and rents as the same shall become due and be approved by the city auditor during the present municipal term, and all bills so paid shall be laid before the committee on accounts and claims at their next meeting.

Passed January 26, 1897.

A RESOLUTION RELATING TO A RE-APPRAISAL OF TAXABLE PROPERTY.

Resolved by the City Council of the City of Concord, as follows:

That the assessors of said city acting together as a board are hereby requested to make a specific re-appraisal, prior to the assessment of taxes for the current year, of all property, real and personal, in the business section of the city, and of the stock in trade of all merchants.

Passed March 9, 1897.

A RESOLUTION OFFERING A REWARD OF THREE HUNDRED DOLLARS.

Resolved by the City Council of the City of Concord, as follows:

That the sum of three hundred dollars is hereby offered as a reward for the arrest and conviction of the party or parties concerned in the desecration of the grave of Mrs. Zelotus Stevens, in Blossom Hill cemetery, Sunday morning, February 21, 1897.

Passed March 9, 1897.

A RESOLUTION IN FAVOR OF JOHN J. TRENOWETH.

Resolved by the City Council of the City of Concord, as follows:

That the sum of thirty-seven dollars and sixty-three cents (\$37.63) be paid to John J. Trenoweth out of any money in the treasury not otherwise appropriated, in full settlement of his claim for unpaid salary as a member of Hook & Ladder Co. No. 1 for the years 1894 and 1895.

Passed March 9, 1897.

RESOLUTIONS PROVIDING FOR THE REMOVAL OF PLANS AND SECTIONS.

Resolved by the City Council of the City of Concord, as follows:

That the city clerk be authorized and instructed to permit the city engineer to take from the vaults containing the same volumes one and two of plans and sections showing street grades for use in the office of said city engineer, the same to be returned when the purpose for which they are taken is completed.

Passed March 30, 1897.

RESOLUTION EXEMPTING THE PENACOOK MANUFACTURING COMPANY FROM TAXATION.

WHEREAS, The Penacook Manufacturing company, a corporation organized under the general laws of state of New Hampshire, purposes to purchase the manufacturing plant, including real estate, machinery, tools, and other personal property known as the "H. H. Amsden & Co. plant" in Ward 1, in said city of Concord, for the purpose of putting the same in operation for manufacturing plumber's supplies of all kinds, and for the working of woods and metals. Now, therefore, be it

Resolved by the city council of the city of Concord, that said plant and the capital used in operating the same be exempt from taxation to said Penacook Manufacturing company, for the term of ten years from the passage hereof, according to the provisions of section 11 of chapter 55 of the Public Statutes of New Hampshire.

Provided that said company shall within thirty days invest in said plant a sum not less than fifteen thousand dollars.

Provided, also, that after one year said exemption shall continue for only such part of said ten years as said corporation shall employ a force of at least twenty-five operatives on said plant.

Passed March 30, 1897.

A JOINT RESOLUTION AUTHORIZING THE MAYOR AND COMMITTEE ON LIGHTING STREETS TO MAKE A CONTRACT WITH THE CONCORD LIGHT AND POWER COMPANY FOR CONCORD GAS LIGHT COMPANY FOR GASLIGHTS.

Resolved by the City Council of the City of Concord, as follows:

That the committee on lighting streets, with the mayor added, be and hereby are, authorized to sign a contract on behalf of said city with the Concord Light and Power company, for the Concord Gaslight company, to furnish gas, lighting and extinguishing one hundred and thirteen (113) street lamps (more or less), burning five (5) cubic feet of gas per hour, one thousand four hundred and sixty-three (1,463) hours each per year, sunset to midnight, twenty (20) nights each month, twelve dollars (\$12.00) per annum per lamp, extra nights pro rata. Said contract to be for five (5) years from March 1, 1897.

Passed March 30, 1897.

A JOINT RESOLUTION AUTHORIZING THE JOINT STANDING COMMITTEE ON LANDS AND BUILDINGS TO BUILD A LOBBY IN WARD 1.

Resolved by the City Council of the City of Concord, as follows:

That the joint standing committee on lands and buildings of the city council be, and the same hereby are, authorized and instructed to have built a substantial brick building adjoining the fire station at Penacook, for the use of the police department. Said building to contain four brick cells, suitable sanitary arrangements, and to be heated by steam taken from fire station boiler.

Said committee to procure proposals for constructing the same, and to let the work by contract to the lowest bidder, at a total cost not exceeding nine hundred dollars (\$900.00), to be charged to the appropriation made for the same.

Passed April 13, 1897.

A JOINT RESOLUTION RELATING TO THE PREMISES BELONGING TO THE CITY HERETOFORE OCCUPIED BY KIMBALL, DANFORTH & FORREST IN THE REAR OF POLICE STATION.

Resolved by the City Council of the City of Concord, as follows:

That the commissioner of highways is hereby instructed in behalf of said city to take possession of the premises in the rear of the police station belonging to said city, heretofore occupied by Kimball, Danforth & Forrest as a lumber yard, and to clear the same and keep the same clear and open for public use.

Passed April 13, 1897.

A RESOLUTION AUTHORIZING THE PUBLICATION OF THE REAL ESTATE VALUATION OF THE CITY ASSESSORS.

Resolved by the City Council of the City of Concord, as follows:

That the board of assessors be requested to prepare for publication in the *Daily Monitor* and *Daily People and Patriot* a list of the real estate valuations of Concord as established by them for the assessment of taxes for the year 1897, describing the property by street, number, and owner's name; and that the mayor be authorized to contract with said newspapers for publishing said list, provided such publication can be had at an expense not exceeding \$150.00 for each paper.

Passed April 13, 1897.

A JOINT RESOLUTION APPOINTING A COMMITTEE TO PURCHASE A PORTABLE STONE CRUSHER.

Resolved by the City Council of the City of Concord, as follows:

That a committee of three, consisting of the mayor, the commissioner of highways, and Alderman Rowell, be appointed to purchase a portable stone crusher for the city, with full power to make such selection as in their judgment the interests of the city demand.

Passed May 11, 1897.

A JOINT RESOLUTION APPROPRIATING MONEY FOR RE-IMBURSING
CERTAIN PERSONS FOR OVERPAID TAXES.

Resolved by the City Council of the City of Concord, as follows:

That the sum of one hundred and sixty-one dollars and eight cents (\$161.08) be, and the same is hereby, appropriated to be paid as follows: To Arthur Bourlet, over-valuation in 1896, twelve dollars and ninety-two cents; to B. W. Couch, excess in taxes 1895, five dollars and eighteen cents; to Henry W. Stevens, trustee Woodward estate, error in taxes, 1896, four dollars and eighty cents; to Samuel Holt, for over-charge in taxes, 1888 to 1896, inclusive, one hundred and thirty-eight dollars and eighteen cents. And that the same be charged to the appropriation for incidentals.

Passed June 8, 1897.

A JOINT RESOLUTION PROVIDING FOR A TEMPORARY LOAN OF
TWENTY-FIVE THOUSAND DOLLARS (\$25,000) IN PAYMENT OF THE
NOTE FOR THAT AMOUNT BECOMING DUE JUNE 10, 1897, THE
SAME HAVING BEEN GIVEN FOR A TEMPORARY LOAN.

Resolved by the City Council of the City of Concord, as follows:

That the city treasurer, under the advice and direction of the committee on finance, be, and he hereby is, authorized to procure, by temporary loan upon the credit of the city, the sum of twenty-five thousand dollars (\$25,000), at the lowest practical per centum, to be used in the payment of the note given by the city for a temporary loan for that amount, which said note was issued December 10, 1896, and becomes due June 10, 1897; and the said sum of twenty-five thousand dollars (\$25,000) is hereby appropriated for that purpose.

Passed June 8, 1897.

A RESOLUTION PROVIDING FOR TEMPORARY LOAN NOT EXCEEDING
IN TOTAL FIFTEEN THOUSAND DOLLARS, TO MEET THE USUAL
AND CURRENT EXPENSES OF THE PRESENT FISCAL YEAR AS THEY
MAY BECOME DUE.

Resolved by the City Council of the City of Concord, as follows:

That the city treasurer, under the advice and direction of the committee on finance, is hereby authorized to procure for sixty

days, by temporary loans upon the credit of the city, such sum as may be necessary, not exceeding in total fifteen thousand dollars (\$15,000), at the lowest practical per centum, to be used exclusively in meeting the usual and current expenses of the city during the present fiscal year, as they become due.

Passed June 8, 1897.

A JOINT RESOLUTION AUTHORIZING THE COMMITTEE ON LANDS AND BUILDINGS TO PROCURE NEW CARPETS FOR THE ROOMS OCCUPIED BY THE CITY COUNCIL AND CITY CLERK.

Resolved by the City Council of the City of Concord, as follows:

That the committee on lands and buildings be, and is hereby, authorized to procure for the rooms occupied by the city council and city clerk, new carpets at an expense not exceeding one hundred dollars, said sum to be paid from the funds in the hands of the city treasurer appropriated for incidentals.

Passed June 8, 1897.

A JOINT RESOLUTION AUTHORIZING AN ADDITIONAL EXPENDITURE FOR THE OLD FORT CEMETERY WALL.

Resolved by the City Council in the City of Concord, as follows:

That the sum of ten dollars (\$10.00) is hereby appropriated out of any money in the treasury not otherwise appropriated, for the completion of the wall of the Old Fort Cemetery.

Passed July 13, 1897.

A JOINT RESOLUTION AUTHORIZING REPAIRS ON THE ROOMS IN CITY HALL BUILDING OCCUPIED BY MILITARY COMPANIES.

Resolved by the City Council in the City of Concord, as follows:

That the committee on lands and buildings be, and hereby are, authorized to cause such repairs to be made on the rooms occupied by the two military companies in City Hall building, as they may think proper, the amount to be expended not to exceed the sum of fifty dollars and to be charged to the appropriation for incidentals.

Passed September 14, 1897.

A JOINT RESOLUTION AUTHORIZING THE USE OF ANY UNEXPENDED BALANCE OF THE PROCEEDS OF THE SALE OF BONDS ISSUED FOR THE CONSTRUCTION OF THE SOUTH END SEWER.

Resolved by the City Council of the City of Concord, as follows:

That any part of the proceeds of the sale of bonds, authorized by ordinance of the city of Concord, passed June 8, 1897, not required for the construction of the South End sewer, may be used in the construction of lateral connections therewith, and the sum of thirty-five hundred dollars (\$3,500.00) of said balance is hereby appropriated for the construction of lateral connections with said South End sewer during the year 1897.

Passed September 14, 1897.

A JOINT RESOLUTION MAKING AVAILABLE CERTAIN UNEXPENDED BALANCES OF THE APPROPRIATION FOR THE FIRE DEPARTMENT.

Resolved by the City Council of the City of Concord, as follows:

That so much as may be necessary of the unexpended balance of the appropriation for the fire department, allotted to the purchase of forage and horses, be and the same is hereby made available for relining old hose.

Passed September 14, 1897.

A JOINT RESOLUTION PROVIDING FOR A RAILING AROUND A PORTION OF THE CITY MARKET PLACE.

Resolved by the City Council of the City of Concord, as follows:

That the committee on lands and buildings be and are hereby authorized and instructed to expend not exceeding \$35 to defray the expense of placing railings on the city market lot, said railings to be placed as follows: One railing to be placed sixty feet south from Warren street and parallel therewith extending from the police station building to Odd Fellows' avenue, so-called; also a railing extending from the southeast corner of the police station building to the building occupied by W. G. C. Kimball; also a railing extending from the southwest corner of said building occupied by W. G. C. Kimball, westerly to Odd Fellows' avenue, so-called, along the north side of the passway leading to Main street, leaving openings for passage of teams. The

expenditure thus authorized to be charged to the appropriation for incidentals.

Passed November 9, 1897.

A JOINT RESOLUTION IN RELATION TO THE USE OF THE APPROPRIATION FOR ROADS AND BRIDGES.

Resolved by the City Council in the City of Concord, as follows:

That the sum of two hundred dollars (\$200.00) appropriated for permanent work on highways be and the same is hereby made available for catch basins in addition to the amount already appropriated for that purpose.

Passed November 9, 1897.

A JOINT RESOLUTION MAKING AVAILABLE FUNDS FOR THE MAINTENANCE OF PUBLIC COMMONS.

Resolved by the City Council in the City of Concord, as follows:

That the sum of fifty dollars (\$50.00) appropriated for White park be and the same is hereby made available for the improvement of public commons in addition to the sum already appropriated for that purpose.

Passed November 9, 1897.

A JOINT RESOLUTION IN RELATION TO THE REFUNDING OF CERTAIN TAXES.

Resolved by the City Council in the City of Concord, as follows:

That the sum of thirteen dollars and seventy-four cents (\$13.74) be refunded to Gustavus Walker and the sum of two dollars and seven cents (\$2.07) be refunded to A. H. Britton, these sums having been paid by them respectively in excess of the just tax assessed against them for the year 1897, and that the same be paid out of the appropriation for incidentals.

Passed November 9, 1897.

A RESOLUTION APPROPRIATING ONE HUNDRED DOLLARS TO DEFRAY THE EXPENSE OF CLEARING THE ICE ON THE POND IN WHITE PARK.

Resolved by the City Council of the City of Concord, as follows :

That the sum of one hundred dollars (\$100) be, and the same is hereby, appropriated to defray the expense of keeping the ice on the pond in White park cleared of snow for skating purposes, the same to be paid from the amount appropriated for incidental expenses; the same to be expended under the direction of the park commissioners.

Passed December 14, 1897.

A JOINT RESOLUTION RELATING TO THE APPROPRIATION FOR ROADS AND BRIDGES.

Resolved by the City Council of the City of Concord, as follows :

That the sum of two hundred and sixty-six dollars and fifty-six cents of the appropriation for roads and bridges now allotted to sidewalks and crossings be, and the same is hereby, made available for use in cleaning streets.

Passed December 30, 1897.

A JOINT RESOLUTION INVITING BIDS FOR PRINTING THE ANNUAL CITY REPORT.

Resolved by the City Council of the City of Concord, as follows :

That the city auditor is hereby instructed to invite bids for printing the annual report of the city of Concord and the finance committee is hereby authorized to accept that bid which in its judgment is most advantageous to the city.

Passed December 30, 1897.

A JOINT RESOLUTION APPROPRIATING FIFTY DOLLARS FOR EXTRA SERVICES OF CITY MESSENGER.

Resolved by the City Council of the City of Concord, as follows :

That the sum of fifty dollars (\$50.00) be, and the same is hereby, appropriated for the purpose of paying the city messen-

ger for extra services in taking care of the extra rooms used by the N. H. military companies of Concord and that the same be charged to the appropriations for incidentals.

Passed December 30, 1897.

A JOINT RESOLUTION PROVIDING FOR THE ACCEPTANCE OF CERTAIN LAND FOR PARK PURPOSES.

Resolved by the City Council of the City of Concord, as follows :

That the triangular tract of land situated in said city and bounded by Center street, Ridge road, and Park Ridge street be, and hereby is, accepted for park purposes from William F. Thayer, Albert B. Woodworth, Edward B. Woodworth, and Austin S. Ranney, subject to the condition that said tract shall, within two years from the passage of this ordinance, be properly graded and seeded to grass, and thereafter be suitably maintained for park purposes, and be known as Ridge Road Park, said tract to be deeded to said city of Concord immediately after the passage of this resolution.

Passed January 11, 1898.

A JOINT RESOLUTION MAKING AVAILABLE FUNDS FOR CARE OF THE CITY POOR.

Resolved by the City Council of the City of Concord, as follows :

That so much of the appropriation for aid of dependent soldiers as is necessary be made available for the payment of bills for care of city poor in excess of the appropriation for that purpose.

Passed January 11, 1898.

A JOINT RESOLUTION MAKING AVAILABLE FUNDS FOR USE OF SEWERS.

Resolved by the City Council of the City of Concord, as follows :

That so much of the appropriation for lighting streets as is necessary be made available for the payment of bills for sewers in excess of the appropriation for that purpose.

Passed January 11, 1898.

JOINT RESOLUTION APPROPRIATING MONEY TO COVER DEFICIENCIES IN THE SEVERAL DEPARTMENTS.

Resolved by the City Council of the City of Concord, as follows :

That the sum of eighteen hundred and ninety-four dollars and forty-six cents (\$1,894.46) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated to pay outstanding claims, as follows:

Fire Department	\$336.91

Net liability of school districts		\$77,520.00

These bonds are issued under ordinances of the city council, as authorized by the act of the legislature of New Hampshire, approved August 14, 1889, entitled "An act authorizing the city of Concord to borrow money in aid of its school districts." These school districts have, by their votes and by their agents duly authorized, bound themselves to the city to seasonably pay to the city sufficient sums of money to enable it to meet the payments of interest and principle upon their indebtedness, and all incidental expenses, as the same shall become due.

PENACOOK SEWER PRECINCT.

SEWER BONDS PAYABLE AS FOLLOWS:

When due.	Rate of interest.	Payable.	Amount.
Aug. 1, 1898,	4,	semi-annually,	\$5,000.00
Aug. 1, 1903,	4,	semi-annually,	5,000.00
Aug. 1, 1908,	4,	semi-annually,	6,000.00
May 1, 1913,	4,	semi-annually,	5,000.00
July 1, 1914,	4,	semi-annually,	500.00

Net indebtedness on account of Penacook sewer precinct, January 1, 1898	\$19,276.15
Net indebtedness on account of Penacook sewer precinct, January 1, 1897	\$19,924.17
Decrease for the year	\$648.02

The above bonds were issued under ordinances passed by the city council, establishing a sewer precinct in Penacook, and authorizing loans on the credit of the city for the establishing of said system. The ordinances also provide that the yearly interest and a portion of the principal shall be raised each year, for the purpose of creating a sinking fund to pay said bonds as they mature, as follows :

\$500 annually for ten years from August 1, 1888,
 \$1,000 annually for five years from August 1, 1898,
 \$1,200 annually for five years from August 1, 1903,
 \$1,000 annually for five years from May 1, 1908,
 \$500 annually for six years from July 1, 1914,

by taxation upon the taxable property in Penacook sewer precinct, said sums, as soon as received, to be placed at interest by the finance committee.

CITY EXPENSES.

FROM JANUARY 1 TO DECEMBER 31, 1897.

*Being an itemized account, made up from the books of the City Auditor, of the payments made by the City Treasurer
on account of*

RUNNING EXPENSES.

The arrangement of the details of expenditure which follows is intended to furnish such information as is desired by the public, and is in accordance with suggestions received from various sources. Items of payment to the same individual at sundry times are included in the aggregate amount given, if paid for the same objects. Every effort has been made to ascertain and pay all the bills for the current year; and in all cases, so far as known, payments of rent, etc., have been made to December 31, 1897, and salaries and committee service have been paid for the full municipal year. The expenses of the year, which are included in the general running expense, may be seen in the aggregate at the end of the detailed account here given. This is intended to include interest, but not the payment of maturing bonds.

SUMMARY STATISTICS.

CONCORD, NEW HAMPSHIRE, WATER-WORKS.

Population of the city by census of 1890..... 17,004.

Population of that portion of the city included within
the water precinct, estimated..... 15,000

Date of construction, 1872; additions since.

Works are owned by the city.

Source of supply, Penacook lake, a natural body of water containing 265 acres, situated about three miles and a half from the state house, and about 125 feet higher than Main street in front of the state house.

Mode of supply, gravity and pumping to reservoir.

FINANCIAL.

MAINTENANCE.

Receipts.	Expenditures.
From consumers (mostly for domestic uses) . . . \$55,202.25	For management and re- pairs \$3,419.40

		\$670,000.00

REPORT OF WATER COMMISSIONERS.

To the City Council:

The Commissioners present herewith their annual report and would respectfully call your attention to the report of the Superintendent, which is made a part of this report.

In many ways the last year marks one of the most interesting years in the history of the water works. Never before has the water stood as high as during the year. In June we were visited by very heavy rains, and especially the night of the 9th, which was almost unprecedented, showing a fall of nearly six inches of water during twenty-four hours. This necessarily brought the lake to a very high point, and much solicitude was manifested as to the ability of controlling the water. However, the difficulty was successfully coped with. This experience led to an examination of the natural water-ways from the lake, and resulted in the expansion of culverts and passage-ways, thus enabling a free flow of water to the river.

Another matter was carefully looked into, the raising of the height of the different points at the outlet of the lake by a permanent core wall, which will demonstrate the ability to hold back a larger amount of water than we have yet had to deal with.

The long-anticipated beginning of a new pipe to the pond has resulted in the laying of 1,780 feet of 20-inch pipe, and it is the policy of the Board to still continue this from year to year.

As will be seen from the Superintendent's report, various extensions of both the high and low service, and the re-laying of pipe in certain streets where the old pipe had proved not only insufficient, but unsatisfactory, has aggregated a mile and three quarters, and the time will not be far distant before other connecting lines at the South end will be needed to meet the growth of that part of the city.

The high service system has proved its efficiency during the

past year and the pumping station and reservoir we find to be in excellent condition.

Satisfactory analyses of the water have been made during the past year, still showing the excellent quality. The Commissioners have considered the matter of moving the cottage at the lake and doing away with all the barns and outhouses, thus removing any possibility of contamination from that source. It will be the policy of the Board to prevent any possible pollution of the water from sources surrounding the lake.

Bonds maturing November 1st, 1897, to the amount of \$10,000, were paid from the income of the works.

We bear testimony to the efficient work of the Superintendent and his assistants in the unusual and trying periods during the year.

Respectfully submitted,

SOLON A. CARTER,
FRANK D. ABBOT,
JOHN WHITAKER,
EBENEZER B. HUTCHINSON,
WILLIAM M. MASON,
EDSON J. HILL,
WILLIAM P. FISKE,
WILLIAM E. HOOD,
ALBERT B. WOODWORTH, *ex officio*.
Water Commissioners.

REPORT OF THE SUPERINTENDENT.

To the Board of Water Commissioners:

I herewith present to you the twenty-sixth annual report of the operations of this department, showing the receipts, expenditures, and abatements, together with a statement of extensions and improvements made during the year ending December 31, 1897.

RECEIPTS.

For water from consumers by fixed rates	\$34,773.17
water from consumers by meter rates	20,178.70
From delinquents	81.60
For water used for building purposes..	166.78
rents	90.00
shutting off and turning on water..	2.00
pipe and stock sold, etc	61.54
	<hr/>
	\$55,353.79
Deduct abatements	197.37
	<hr/>
Total receipts for 1897	\$55,156.42

EXPENDITURES.

		<hr/> \$2,163.54

EXTENSIONS AND IMPROVEMENTS.

Main and distribution pipes have been laid and hydrants set during the year as follows:

In North State street,

north from near the pumping station to a little north of the cemetery gate, 1,769 feet 20-inch pipe.

In North State street,

to make connection at the pumping station, 36 feet 18-inch pipe.

In North State street,

on connection between the mains at cemetery gate, 40 feet 14-inch pipe.

In Turnpike street,

south from near West street to junction South State street, 1,026 feet 14-inch pipe and 2 hydrants.

In Turnpike street,

south from junction of South State street to Langdon street, 1,193 feet 12-inch pipe and 1 hydrant.

In Langdon street,

east from Turnpike street, 360 feet 10-inch pipe.

In Pleasant street,

west from Spring street to Pine street, 1,230 feet 10-inch pipe and 2 hydrants.

In Merrimack street,

to make connection with Pleasant street pipe, 6 feet 6-inch pipe.

In High street,

north from Valley street to Chestnut street, 982 feet 6-inch pipe.

In Penacook street,

east from near Pettingill's Crossing, 933 feet 6-inch pipe.

In Rockingham street,

east from South street, 314 feet 6-inch pipe.

In Ridge Road,

extended north, 307 feet 6-inch pipe.

In Broadway,
extended, south, 154 feet 6-inch pipe.

In Odd Fellows avenue,
south from Warren street, 201 feet 4-inch pipe.

In Centre street at Ridge Road,
1 hydrant.

On hydrant branches,
140 feet 6-inch pipe.

Also 308 feet 1-inch and 74 feet 3-4-inch pipe.

Main and distribution pipes have been discontinued during the year, as follows:

In North State street,
north from near the pumping station to a little north of the cemetery gate, 1,789 feet 14-inch cement-lined pipe.

In Pleasant street,
west from Rumford street to Pine street, 900 feet 6-inch cement-lined pipe.

In High street,
south from Chestnut street, 502 feet 6-inch cement-lined pipe.

In Penacook street,
east from near Pettingill's Crossing, 773 feet 6-inch and 160 feet 4-inch cement-lined pipe.

In Rumford street,
south from School street to Pleasant street, 1,203 feet 4-inch cement-lined pipe.

On hydrant branches,
72 feet 6-inch cement-lined pipe.

Also 306 feet 1-inch pipe.

Summary of the Foregoing.

14-in., 1,789 "	
<hr/> 5,705 feet, equal to 1.08 miles.	<hr/> 3

Total length of main and distribution pipes now in use, 303,050 feet, equal to 57.39 miles.

Total number of hydrants now in use, 252.

Total number of gates now in use, 701.

SERVICE-PIPE.

There have been laid during the year and connected with the main pipes, 58 service pipes, consisting of 58 3-4-inch, 1,389 feet in length.

Number discontinued during the year, 1; whole number in use at the present time, 3,173; total length of service pipes, 74,520 feet or 14.11 miles.

All the water rents for the year have been collected; one supply was shut off to enforce the payment, which was soon made with the fine.

We have set 132 meters during the year; 2 have been taken out, making the total number now in use, 632.

The following table shows the height of water in Penacook Lake on the first day of each month:

January . . .	180.35	July . . .	184.90
February . . .	180.40	August . . .	185.00
March . . .	180.70	September . . .	184.40
April . . .	182.50	October . . .	184.10
May . . .	184.50	November . . .	183.65
June . . .	185.25	December . . .	184.20

The lowest point reached was January 13, being 180.20; the highest was June 10, 186.25; mean height, 183.33, which was 4.37 feet higher than the mean height for the year 1896.

At its highest record, the water stood 11.94 feet above the lowest record of 1896, and 5.15 feet above the highest point of that year; and comparing this highest record of June 10, with all previous records of the height of water, it stood 18.20 feet higher than the lowest point ever reached, and 1.65 feet higher than the highest point ever reached, since 1872.

The water has been running over the overflow one hundred and seven days during the year. The continued high water prevented us from undertaking any extended repairs and improvements around the outlet until quite late in the season. However, nearly all the work was completed which you proposed in this direction.

A core-wall two feet thick and varying from one to four feet in depth, was built from the north line of the Hopkinton road to the overflow, a distance of 152 feet; also commencing at the overflow, passing around the rear of the cottage and buildings, into the road and across the dam, a distance of 670 feet. This now makes the top of the core-wall on a level with the top of the stone work at each end of the overflow, and 28 inches above the overflow.

A water-way was constructed from the overflow to the culvert under the road, about 180 feet in length. At the overflow, it is 40 feet wide, the entire width of the overflow, and then it narrows down to 25 feet; it has a concave bottom, concreted, and curbing rising 10 inches above the concrete, making the depth 22 inches from the top of the curbing to the centre of the channel. In the construction, the hard pan was removed three or four feet in depth, the entire length, and replaced by 18 inches of sand, to protect the concrete from frost. The earth thus excavated was used to raise the road leading around the lake, which is now of such height that probably the water will never flow over it again.

A new culvert was built to replace the one destroyed by high water in June; it is 7 by 12 feet and 25 feet long; the stone work was done by the day by M.H. Johnson, and like all work done by Mr. Johnson, is a fine piece of masonry, thoroughly constructed. The brick arch covering it was not completed, owing to the lateness of the season. The present cost of the culvert is \$671.95.

From the culvert, a water-way was cut leading down through the woods to near the city culvert at Quaker street, thus completing a clear channel from the overflow through the water-works land, and I believe that the present arrangement for carrying for high water is equal to any probable emergency. When the culvert is finished, this will complete the work which you directed to be done this season, with the exception of the grading of the road from the cottage to the Hopkinton road.

The most serious break of the year was on the main line near M. H. Farnum's; the culvert at this place was inadequate to care for the large amount of water occasioned by a heavy rain on July 14, and the water washed out the road, undermining and breaking one of the main pipes. We re-laid the cement-lined pipe with cast-iron, and also repaired the road, over thirty loads of grade being required to fill the washout.

We commenced this year an important work in the beginning of a new main to replace the original 14-inch cement-lined pipe, laid in 1872. A 20-inch pipe was laid from the pumping sta-

tion to a little north of the cemetery gate; and I would urgently recommend that this new main be continued from year to year as circumstances will allow, until the old 14-inch pipe may be discarded.

I would also recommend that Monroe street be re-laid with 6-inch cast-iron pipe in place of 4-inch cement-lined, as we have had a number of leaks on that street from the old pipe; also that the Broadway pipe be extended from the north gate of Rollins Park to McKinley street, and through McKinley street to Turnpike street.

In January last, John St. Lawrence, foreman of the street work for nearly three years, died very suddenly. He had worked for the department about six years, and his faithfulness and increasing efficiency made him a valuable and trustworthy employee.

Respectfully submitted,

V. C. HASTINGS, Superintendent.

TREASURER'S REPORT.

W. F. Thayer, Treasurer,

In account with Concord Water-Works.

AUDITOR'S REPORT.

I have examined the foregoing accounts of the Superintendent of the Water-Works and City Treasurer and find them to be correct.

JAMES O. LYFORD,
City Auditor.

SANITARY ANALYSIS OF WATER.

SAMPLE FROM OVER INTAKE, PENACOOK LAKE.

Water is a mineral substance, composed of two elements. Hydrogen forms one ninth of its weight, and oxygen, eight ninths. This is water chemically pure, or pure water. As found in nature, it always contains other substances. Water sanitarially pure need not be chemically pure. Water sanitarially impure, designated as polluted, or contaminated, contains substances or organisms injurious to health; animal matter, vegetable material, disease germs, poisonous metals, as lead, zinc, copper, manganese, etc.

The figures in the analysis represent parts per 100,000. To convert into parts per million, multiply by 10; into parts per United States gallon, by 0.583722; into parts per English gallon, by 0.7.

ODOR.—Slight.

COLOR.—Slight yellowish tint.

TRANSPARENCY.—Clear.

Pure water is odorless, colorless, clear, and tasteless. Water sanitarially pure may have one or all of these properties. Polluted water may be free from some or all of them.

BEHAVIOR DURING EVAPORATION.—Some foamy.

APPEARANCE OF RESIDUE.—Little yellowish; some circles.

Water containing vegetable juices is a thin syrup. Such water foams during evaporation. Circles and irregular figures are marked on the dish where the last bubbles break in drying away. Animal matter seldom causes water to behave in this manner.

TOTAL SOLIDS.—3.4.

The amount of solids in water, sanitarially pure, varies greatly. Good well water in this state seldom contains more than 15 parts. Good pond water contains less than half of this quantity.

IGNITION OF RESIDUE.—It blackens.

The residue blackens in proportion to the amount of organic carbon present, provided there is no excess of nitrates. Nitrates are present excessively more often in animal polluted waters; hence the residue of such waters blackens less than that of vegetable contaminated waters, both because animal matter contains less carbon as a rule, and because the nitrates supply oxygen to consume it quickly. Vegetable carbon often blackens intensely and the blackening persists.

LOSS ON IGNITION OF RESIDUE.—1.5.

This consists of the combustible and volatile portion of the organic matter, and volatile mineral substances,—carbonic acid, nitric acid, water of crystallization, zinc, and other volatile metals. The proportion of mineral solids is larger in well water than in pond water, because well water settling through the earth has come in contact with more soluble minerals. On the other hand, pond water contains more organic solids, because the soluble organic matter received from the surface of the ground has not been removed by the filtering action of earthy strata. It is seldom that the character and quantity of natural, mineral solids condemn a water. Vegetable matter is less harmful than animal matter. Both are more harmful in well water than in pond water, because light and sunshine tend to destroy deadly germs.

HARDNESS.—1.5.

ALKALINITY.—1.0.

The figures are given in terms of carbonate of lime, *i. e.*, so many parts of carbonate of lime would give the same figures. Hardness and alkalinity give considerable information about the mineral constitution of water and often

concerning its sanitary condition. Hardness is due chiefly to the salts of lime and magnesia, most often, their carbonates and sulphates. Alkalinity is caused only by their carbonates, or by the carbonates of potash, soda, ammonia, or some other alkali. Water hard from the salts of lime and magnesia, other than their carbonates, shows no alkalinity, unless the substances last named above are present. The carbonates of lime, or magnesia give nearly the same degree of hardness and alkalinity, lime especially. Sewage increases the alkalinity which then becomes an indication of pollution.

FREE CARBONIC ACID.—1.98.

COMBINED AND BICARBONATE CARBONIC ACID.—.88.

As the largest part of organic matter is carbon, so the largest product of decay is carbonic acid. Natural waters are weak solutions of carbonic acid. Through its agency the carbonates of lime, magnesia, iron, lead, and zinc, are dissolved and kept in solution in water. Expel the carbonic acid by boiling and these carbonates precipitate, rendering the water turbid and forming a scale on the kettle. Water which contains much decaying organic matter, contains much carbonic acid; hence polluted water attacks lead pipe more freely than pure water. Combined carbonic acid is that which is united with a metallic base, forming a carbonate; bicarbonate carbonic acid holds the carbonate in solution; the free carbonic acid is that which is simply dissolved in water.

FREE AMMONIA.—0.0024.

ALBUMINOID AMMONIA.—0.014.

Ammonia results from the decomposition of organic matter; the free, is that which the natural process of decay has produced, and points to what extent decay has been going on in the water; the albuminoid, results from the artificial decomposition of organic matter during analysis and points to the quantity of organic matter actually present. In good well water the albuminoid ammonia should not exceed 0.009 part, and in good pond water 0.015 part. In neither should the free ammonia exceed 0.005 part.

CHLORINE.—0.2.

Chlorine is a constituent of common salt. Sewage is rich in salt, hence the value of chlorine as an indication of pollution. Good water should not contain more than 0.5 part of it, unless the locality is near the sea coast, or is naturally rich in salt.

NITRIC ACID.—Trace.

This is a constituent of saltpetre which is produced by the fermentation of manures and sewage. Good well water should not contain more than 0.5 part of it, and pond water not more than 0.02. Excess of chlorine, or nitric acid in water always indicates either actual contamination, or dangerous proximity to sources of filth. In this case, the water contains filtered sewage. Nitric acid often results from the oxidation of ammonia, or vegetable matter. If the quantity of chlorine is normal while the nitric acid is excessive, the water is probably contaminated with vegetable matter, unless other results deny it.

NITROUS ACID.—None.

This is a lower oxide of nitrogen than nitric acid. It is a transition product between ammonia, or organic matter, and nitric acid. Its presence shows that the source of pollution is so near that time enough has not elapsed for the complete oxidation of its nitrogen in its progress toward the water supply. Good water should contain none of it, or but a mere trace.

OXYGEN CONSUMED IN OXIDATION.—0.142.

Good well water should require less than 0.1 part of oxygen, and good pond water less than 0.2 for the oxidation of its dissolved organic matter. In no case should it exceed 0.4. Some bad waters may require less than 0.05 part. Vegetable material, comparatively richer in carbon than animal substances, requires more oxygen for oxidation; while animal substances, being richer in nitrogen, yield more ammonia and other nitrogen compounds.

POISONOUS METALS.—None.

Water should not contain more than 0.03 part of lead, or copper, or more than 0.05 part zinc.

IRON.—Trace.

Good water ought not to contain more than 0.1 part iron.

SEDIMENT.—Very little.

Good water should deposit no sediment, or scarcely any.

MICROSCOPIC EXAMINATION AND BIOLOGICAL CHARACTER OF SEDIMENT.—Diatoms and algæ.

NUMBER OF BACTERIA PER CUBIC CENTIMETRE GROWING AT BLOOD TEMPERATURE IN ALKALINE AGAR MEDIUM.—2.

NUMBER OF BACTERIA PER CUBIC CENTIMETRE GROWING AT BLOOD TEMPERATURE IN AGAR MEDIUM CONTAINING PARIETTI'S SOLUTION.—None.

Disease germs grow at the temperature of the body. Many harmless bacteria also flourish at this temperature. If a sample of water contains none which grow at this temperature, disease germs are evidently absent. The disease germ more usually found in waters of this latitude is the typhoid bacillus. The bacillus coli communis, whose original habitat is in the intestines, though not strictly a disease germ, is preëminently the sewage bacterium, and consequently all waters in which it is found should be condemned. The presence of any other sewage bacterium should also condemn a water for drinking purposes. The typhoid bacillus, the coli communis, and a few others will grow in agar medium, containing Parietti's solution, but to distinguish and identify them, special cultures and examinations must be made. Bacteria multiply very rapidly after water is taken from its source and raised to summer temperature. Since the kind of bacteria is more important than their number, the delay necessarily caused by transportation of the sample, if not too long, is favorable instead of objectionable, because a very few disease germs in a large quantity of water might escape discovery, but detection of them would be much more certain after their multiplication.

DISEASE GERMS.—None.

This is good water.

EDMUND R. ANGELL.

August 13, 1897.

REPORT OF ENGINEER OF PUMPING STATION.

Pumping Station, Concord Water-Works.

V. C. Hastings, Superintendent:

Sir,—I would report that the pumping machinery at the pumping station is in good working condition.

Following will be found a statement of the coal and supplies used at the pumping station during the year, with a table showing the work for each month:

STATEMENT.

101 tons, 1,366 lbs. Pocahontas coal.
 45 cords of wood.
 43 gallons of oil.
 27 pounds of waste.

ENGINE RECORD.

Date.	Pumping time. h. m.	Gallons water pumped.	Daily average pumped.	Total coal burned.	Daily average coal burned.	*Gallons pumped per pound of coal.
January.....	111:30	9,557,125	308,294	21,228	684	450
February.....	111:30	8,994,685	321,238	20,332	729	442
March.....	116:00	9,683,205	312,361	20,538	662	471
April.....	97:45	8,011,815	267,060	17,378	579	461
May.....	97:00	8,308,335	268,010	17,937	578	468
June.....	99:45	8,655,010	288,500	18,567	466	467
July.....	111:25	9,674,840	312,091	19,691	635	491
August.....	88:30	7,776,510	250,885	16,187	522	480
September.....	106:15	9,125,760	304,192	18,498	616	493

HIGHWAY DEPARTMENT.

REPORT OF COMMISSIONER OF HIGHWAYS

To the City Council:

Gentlemen:—In submitting my annual report as commissioner of highways, I will touch briefly upon the work accomplished during the past year.

Not much has been done on new streets, McKinley street being the only one of much importance. This street was nearly finished to grade. There has been a fill made on Langdon street of 704 loads which makes it passable, and a temporary plank walk built from Turnpike street to the railroad shops for the accommodation of the employees of the works.

A petition for the grading of High street from Centre to Franklin was presented to the city council in March and referred to the committee on streets and sidewalks. By them it was recommended that the matter be referred to the commissioner of highways and that the street be graded as far as practicable this season. Work on the same was commenced in June. The material excavated was a good quality of gravel and was used to advantage in repairing the streets. About 1,200 loads of stone and 1,833 loads of gravel were removed. This gravel was very valuable, as the many heavy rains caused numberless washouts and the stone was crushed with our portable plant at a small expense. There is still considerable work to be done on the street which will make a fine street when completed and be a great improvement to that part of the city.

Of the work done on bridges this year \$137.39 was expended in replanking and repairing the "Twin bridge" at Penacook. In March this bridge was inspected by a bridge builder and

thought to be safe for another season, but it should soon be replaced with an iron bridge. The bridge on the South Pembroke road over the Soucook river was repaired by the city, the Town of Pembroke paying one half the expense of \$67.60. The stringers of the bridge over the Turkey river at St. Paul's School are decayed and will have to be replaced next year. There is considerable travel over this bridge and a new one with sidewalks is needed, and I think the School would bear a portion of the expense of constructing a modern iron bridge. The Loudon and Federal bridges across the Merrimack, the Iron bridge at Penacook and the one at Horse Hill across the Contoocook will have to be painted next season, which will be quite an expense.

In June, the heavy rainfall raised Penacook lake, the source of the city water supply, so that it overflowed and did considerable damage. Hutchins street from the lake to West State street was badly washed. The culvert on Quaker street proved insufficient to carry the water and was therefore enlarged at an expense of \$144.49. At this same time the culvert over Bow brook on Clinton street was enlarged, the expense being \$36.95. A portion of the culvert on West State street opposite the Concord Manufacturing Company's mill will have to be rebuilt next year.

The work of cleaning streets this year has been done under a separate appropriation. The spring and fall cleaning work increases each year, and this season 2,595 loads of garbage were removed. This work is a great help toward the good appearance of our city. The residents seem to take more pride in keeping their yards and vacant lots neat, since the city removes the ashes and rubbish. This season the work of keeping Main street from Pleasant to Centre and Warren and Capitol streets from State to Main clean, was given to one man with a hand-cart. The method has proved very satisfactory and another year, I think, it would be advisable to add another cart and to extend the work over a larger portion of the city. The business section has been cleaned by night as years before. There are still many calls to have the section extended.

The snows of the past winter have been removed from the

sidewalks by the owners or occupants of the premises. Several hundred notices were sent out during the season ordering the walks cleaned, but in only a few cases were second notices necessary. One case was referred to the city solicitor for action and the matter was brought before the police court. An appeal was made to the higher court for a decision, but the case is still unsettled.

During the summer there were many hard rain storms, often three or four in succession. This, of course, filled up the catch-basins and necessitated considerable work on them. The number is large and increasing each year, and therefore the appropriation of \$800 was soon exhausted and the city asked to appropriate more money. From the money collected by the department \$300 was transferred to the appropriation. This sum was still insufficient and more money called for. By this may be seen that a much larger sum will have to be appropriated next year.

The appropriations for the Highway Department for 1897 were made under different heads as follows: General maintenance and repairs, \$18,000; permanent work, \$8,000; cleaning streets, \$4,000; sidewalks and crossings, \$4,500; construction and cleaning catch-basins, \$800; making a total of \$35,300. This amount was formerly appropriated in one sum, excepting that for sidewalks and crossings, and the public generally understood that it was expended wholly on the streets and thought that we had but little to show for the money expended. By the appropriation being divided it may be seen just what the amounts are expended for. I hope that the appropriation for permanent work may be increased another year.

In my last report I recommended the purchase of a portable stone crusher plant, which the city thought advisable to buy this season. At the meeting of the city council in May, a resolution was passed appointing a committee of three, consisting of the Mayor, Commissioner of Highways and Alderman Rowell, to purchase a portable stone crusher for the city with full power to make selection as in their judgment the interests of the city demanded. The committee examined plants in operation in several places and found that they all gave satisfaction. Bids were

called for and six were received, which were as follows: Earl C. Bacon, Farrel Crusher, \$2,040; Good Roads Machinery Co., Champion, \$1,677; S. C. Nightingale & Childs, Austin, \$1,795; Climax Road Machine Co., Climax, \$1,462; Austin & Western Co., Western, \$1,500; Gates Iron Works, Invincible, \$1,950. The bid of the Climax company being the lowest, it was accepted. We experienced considerable delay in receiving the crusher, but by the last of July it was installed at a gravel bank on the main road between Penacook and West Concord. It was difficult to obtain much stone only by running the gravel through the crusher. This, of course, gave a large amount of fine stone, but about 600 loads were crushed and used on the Penacook road below Willow Hollow. From there the crusher was moved to High street where it was used during the remainder of the season, and it may be used there another season to good advantage.

A portion of the appropriation for permanent work was expended for the new portable stone crusher and the remainder for macadamizing. The following table shows the work done:

PERMANENT WORK.

Work.	Street.	From	To	Length.	Width.	Loads crushed stone.	Cost of excavating.	Cost of spreading, rolling, etc.	Total cost.
Macadamizing.....	No. State.....	Franklin.....	Church.....	458'	29'	196	\$69.00	\$280.91	\$349.91

"	Merrimack.....	Penacook.....	800'	18'	191	155.73	693.53	849.26
"	Penacook Road*.....	2,100'	16'	597	198.70	1,550.25	1,748.95
				6,251'	2,358	\$1,410.62	\$4,644.36	\$6,054.98

* South of Willow Hollow.

The stone for these several pieces of work was the material from High street crushed with the portable crusher, with the exception of that used on North State street, which came from the stationary crusher and that on Merrimack street in Penacook. Material was not plenty there and it was found that it could be delivered there from Suncook at less expense. Another year, I think it would be advisable to expend a portion of this appropriation for a good piece of paving. There has been a petition presented to the city council for the paving of Bridge street from Main street to the Railroad bridge, but no action has been taken. North Main street from Centre to Pitman is still in poor condition and it seems that paving would be the thing for the place. All the freight and travel from the railroad station is over Freight street and I think the public deserves a better street. On account of the heavy traffic, paving is certainly what is needed.

I would recommend the establishing of the street line on the Hopkinton road from Fruit street to Pleasant View, the home of Mrs. Mary B. G. Eddy, and putting in a macadam road from Fruit street to St. Paul's School. There is more pleasure driving over this road than any other leading from the city and macadam would doubtless be greatly appreciated.

The matter of moving the street railway track at Penacook, which has been before the city government for many years, was finally settled at the October meeting. By an agreement with the street railway company the location was to be excavated and filled by the city according to plans and specifications drawn up by the city engineer and the railway company to move their tracks and pay the sum of \$75 toward the work of excavating and filling. The contract was awarded Henry Morrill of Penacook for \$552.20, and the work completed by him in December. It is expected that the railway company will move their tracks early in the spring and when that is done it will be necessary to put in a bank wall opposite the premises of John Wilde and Harry A. Cleveland.

In November the railway company commenced the work of laying new rails on North Main street, which was rather late in the season for work of that kind. The paving had to be taken

up and as the cold weather soon came on it was impossible to get it back in good condition. The thaw and rains which followed took the frost out of the ground and left the street in a terrible condition. The company repaired it as well as they could, but it will all have to be relaid another year.

The city council this year amended the City Ordinances in regard to the issuing of permits for opening and obstructing streets. There had been no written permits issued but by the amendment of the ordinances the matter was left with the Commissioner of Highways. A form of permit was made out and approved by the city council. Although it is not yet generally understood in regard to obtaining permits, the people have in most cases, obtained them before commencing the work. The permits give the name of the person calling for the same, the street and number, length and width of obstruction or opening, date of issuing, date when work is to be completed, and the rules and regulations governing the work. This is signed by the person obtaining the permit and a duplicate copy given him which is to be returned when the work is completed and is filed with the original permit. They are valuable as a protection to the city and have proved so in cases where the street has not been left in a proper condition, as there has been some means of reaching the party doing the work.

In closing, I desire to thank His Honor the Mayor, the city council, the committees on streets and sidewalks, roads and bridges and city solicitor for the many courtesies extended the highway department.

Respectfully submitted,

ALFRED CLARK,
Com. of Highways.

SEWERS AND DRAINS.

REPORT OF COMMITTEE ON SEWERS AND DRAINS.

To the City Council: The committee on sewers and drains held eight meetings during the year, and the members thereof made frequent inspections of the work while it was in progress. The extension of the "South end sewer," so-called, was the most important work of the season and was built under contract by Mr. John Walker of Newmarket, N. H. Proposals were asked for and the following were received: Lyman R. Fellows & Son and George L. Theobald, Concord, N. H., \$22,513; A. W. Bryne Construction Co., West Medford, Mass, \$20,880; P. H. Harrison & Sons, Hartford, Conn., \$20,459.52; T. H. & G. M. Bryne, West Medford, Mass, \$18,668.92; John Walker, Newmarket, N. H., \$17,861.02. During the year 85 permits for sewer connections were issued by the clerk of the committee. The amount received for rent of pumps was \$90.76 to the credit of the city precinct, and \$7.50 to the credit of the West Concord precinct. No new work was done in the East Concord precinct. In the West Concord precinct a small amount was expended for flushing and ordinary repairs. In the Penacook precinct the usual repairs and flushing were made; none of the outside precincts expended any large amounts during the past season.

PETITIONS RECEIVED AND ACTION TAKEN.

Mary J. Sanders and others, for sewer in Pillsbury street; granted and built.

Charles S. Brown, for sewer in Broadway; granted and built.

F. H. Hill and others, for lowering sewer in Abbott street; petitioners were given leave to withdraw.

W. A. Sleeper and others, for sewer in White street; further time asked.

George H. Morey and others, for sewer in Broadway; granted and built.

W. D. Kimball and others, for sewer in South street; granted and built.

Mead, Mason & Co., for sewer in Cedar court; granted and built.

Mrs. A. Chase and others, for sewer in Pleasant street; further time asked.

Amos Blanchard and others, for sewer in Warren and Pleasant streets; granted and partially built.

G. J. Johnson and others, for sewer in Clinton street; granted and built.

Levi W. Everett and others, for sewer in Winter street (Pencook); further time asked.

George A. Cummings and others, for sewer in Broadway; granted.

Western Cofran and others, for sewer in North Spring street; granted.

Charles F. Nichols and others, for sewer in Park Ridge and Ridge Road; granted and partially built.

W. B. HOWE,
Clerk of Committee.

ELECTRICAL DEPARTMENT.

To His Honor the Mayor and the City Council:

The work done during the past year under this department has been all that we could reasonably ask for. The several companies have maintained their lines up to the usual good condition.

DEAD WIRES.

There has been a large amount of dead wires taken down that were abandoned by the owners. There still remains a large amount to be removed, and is being cared for as fast as circumstances will permit.

PRIVATE LINES.

I would call the attention of your honorable body again to the custom of granting permits for private lines. It seems to me that there should be some arrangement whereby the permits granted should be referred to the inspector of electric wires, as these lines are often put up by incompetent parties and in a short time abandoned and left to be cared for by the city, and in many cases become a source of danger by their crossing with other wires of a high potential.

In conclusion, I think as a whole, our electrical service will compare favorably with any of a like nature. The city has been free from any accidents caused by electrical wires, either by fire or otherwise, during the past year.

Respectfully submitted,

F. W. LANDON,

Inspector of Electrical Wires.

REPORT OF THE COLLECTOR OF TAXES.

To the City Council:

I herewith submit the report of collection of taxes to the close of business December 31, 1897.

Very respectfully :

WENDELL P. LADD, *Collector*.

Concord, Jan. 10, 1898.

REPORT OF CITY ENGINEER.

To His Honor the Mayor and the City Council of the city of Concord: Gentlemen,—I herewith submit the report of the work done in the city engineer's and sewer departments for the year ending December 31, 1897:

The following statement shows the expenses of the engineer's department for the year:

Paid for salaries,	\$2,457.25
for supplies,	98.49
for repairs,	14.15
for rent,	204.00
for incidentals,	210.08
	<hr/>
	\$2,983.97
Appropriation,	\$3,000.00
Total expenditure,	2,983.97
	<hr/>
Unexpended balance,	\$16.03

The cost attending the construction of all sewers built during the season of 1897 will be found upon the following pages. Considerable time was spent by this department upon the preparation of plans, etc., for the construction of the extension of the "South End sewer," so-called, from the junction of Allison and South streets to the junction of Giles and Centre streets. The greater portion of this sewer was through private property, which was so of necessity, owing to the contour of the city, to meet the demands of the district to be drained.

The completion of this main will relieve a section of the city hitherto without any sewer facilities, which, from a sanitary view, were greatly in need of relief; it also provides an outlet for some years to come, for the westerly portion of the city, which was cut off from the older system of sewers.

The work on this sewer was done under contract, by Mr. John Walker of Newmarket, N. H., at a price about \$4,600 below the bid of local parties. The cost of this work will be found in the statement of cost of sewers attached to this report. Unusual expenses attended the repairs upon the sewers, especially in North State street, at Walker street, and in North Main street, near the store of P. H. Larkin, caused by the excessive rains of the past season.

So much of the time of this department was required on sewer work that the work upon the general survey of the city was cut short, and we were not able to complete the work mapped out for the season.

The demands upon this office for information concerning street lines and grades have steadily increased, and the necessity for saying that the lines of some streets are indefinite, is at times somewhat embarrassing.

I will quote from my report of 1895: "At the time when many of our streets were laid out the value of the land taken was very small, and in many cases the land was given, for the street, by the owners. To-day the values are different, and each abuttor, probably honestly, claims more land than the old records indicate. In many cases the old lines are described as 'starting at a pair of bars and ending near an apple tree,' both the bars and the apple tree have long since disappeared, and the 'oldest inhabitant' has no knowledge of them. In view of these facts I would respectfully recommend that a little work be done, each year, in establishing and permanently marking the lines of some of these streets; this would greatly assist the heads of all departments in their work upon them."

I would again respectfully submit that some of this work should be taken up before further encroachments are made upon the highways.

The employees of this department during the season of 1897 were: Frank W. Brown, assistant engineer; Fred W. Lang, transitman; Charles H. Chandler, H. C. Hill, and C. F. Moore, rodmen, who have cheerfully attended to the duties entrusted to them.

GRADES ESTABLISHED.

EAST CONCORD SEWER PRECINCT.

No work has been done in this precinct the past season.

The unexpended balance of last year remains \$164.51.

The demands from other departments of the city for services, have, so far as we were able, been promptly responded to, and

we have met with the same treatment when we have had occasion to apply to them for information or services.

I wish to express to the mayor and the city council my appreciation of their support and co-operation during the past season.

Respectfully submitted,

W. B. HOWE,
City Engineer.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

To the City Council: The trustees of the Public Library herewith transmit the report of the librarian, which contains a full account of the work done during the past year. It is fitting that at this time and place the services of Judge Foster, so long a member of this board, be suitably remembered. His death left a vacancy not easily filled, for he ever took an active and sympathetic interest in the welfare of the library, and it was, perhaps, the only public institution which so much occupied his thought. His eminence as an advocate and jurist has been commemorated by the bar of which he was a leader, in resolutions recorded by the court of which he had been a distinguished member, and his many sterling qualities were known to every citizen; but we cannot refrain from expressing for him our personal regard. We shall not soon forget the simple and gracious dignity with which he presided at our meetings, imparting to all present that subtle, pervasive influence of harmony and human interest which is unconsciously diffused by such rich natures. He was known to every one as a learned and eloquent lawyer and as a polished gentleman; but he was also a man of fine literary tastes, and a discriminating reader of the best books; and the shelves of the Library owe no small part of the richness of their accumulations to his cultivated judgment.

It is hardly necessary for us to commend the work of the librarian and her assistants, for the public have daily experience of their zeal and fidelity and are fully conscious of the patience and courtesy with which their wants are served.

MOSES H. BRADLEY.

REPORT OF THE LIBRARIAN.

To the Board of Trustees of the Concord Public Library:

Gentlemen: The forty-first annual report of the library is herewith presented:

The past year has been a normal one; 1895 and 1896 saw accomplished proportionately more work than has been reported by any other library in the land. But during 1897 only one large piece of work has been done, and that was pushed through in four months. I refer to the printing of the fiction finding-list. Care was taken before printing to buy standard stories which by inadvertence were not already on our shelves.

The more difficult task of preparing copy for a non-fiction catalogue has already begun, and to complete that will be the main work of 1898. As it would be a pity to put in black and white those departments of the library which are now short of material, we shall, before printing, compare our shelves with the list of the model library shown at the World's Fair, and with other approved lists, and spend thought and money in buying the leading books we do not already possess. For a few months before arranging our final copy, recommendations from experts as to the best works in their departments will be welcomed and solicited.

After the entire contents of the library are again in print, as they will be through the printing of the non-fiction, persons living at a distance will not be at the disadvantage they now are compared with those who can come easily to consult the card catalogue.

Yet here let me state that it has been a surprise to see the number who prefer to use the cards when selecting fiction, even though a printed list of the same books lies at their elbow.

1897 not only reverted to more nearly an average year's work in general ways, but the circulation declined from last year's figures, though it still gives Concord the lead in the state. We

echo the words of Brooklyn's librarian when he says: "I would like to inquire whether the bicycle has caused any decrease of reading. Nearly everyone rides a wheel in these days, and it would seem that this takes some of the time formerly devoted to literature."

For the first time in the history of the library, registration of the circulation by classes has been taken, and the result shows that in 1897 Concord's use of fiction was 85 per cent out of the total 100; the circulation of magazines was over 5 per cent, of literature over 2 per cent, of history (including biography) over 3 per cent; of the remaining classes, philosophy, religion, sociology, philology, natural science, useful arts, and fine arts, less than 1 per cent.

It is to be hoped that a growing use of the non-fiction card, which has already been enjoyed by hundreds, will reduce this large percentage of fiction reading.

It is now the custom for libraries to accord teachers the privilege of taking several books on science, history, etc., to their school-rooms, that lessons may be enlivened and the pupils glean different items to recite. Concord teachers will find us striving to bring about this modern close union between schools and library.

It is gratifying that we have almost 600 new borrowers. It has been a pleasure to have many of the men newly employed at the railroad shops, apply for library cards. Our reading-room is more than full on cold Sunday afternoons.

And most gratifying of all the statistics is the record of only 2 books lost out of the 85,000 circulated. The librarian and delinquents could tell at what cost of mutual worriment this loss of city property is reduced so low.

A large number of books have been discarded as too soiled and torn for further loaning, and have been sent to a contagious hospital where they are read once and burned. Many old duplicate periodicals have been given to places where they may have further usefulness.

A dirty and dreaded task was finished last month,—the sorting of the heterogeneous mass of material in the basement; government publications, duplicates, newspapers, pamphlets, city

and state papers, have been looked over one by one and catalogued so as to become a live part of the library's resources.

There is now nothing under this roof which has not passed in review and been subjected to the question whether it was creditable.

The roof itself needs your wise attention directed to its repair.

The outside of the building looks well with its new coat of paint, and the inside we are trying to make strike the incomer as progressive, whether he regard the practical appliances, the lessening of barriers, or our latest list of books.

The "Monitor" and "Patriot" have kindly continued to publish our purchases, and these lists are eagerly seized upon by all. I send copies to be hung up in Penacook, West Concord and East Concord.

Grateful mention should be made of the gift from Mrs. Armenia White of the valuable "National Cyclopaedia of American Biography," a 12-volume work. We are indebted to her also for subscriptions to "The Woman's Journal" and "The Philanthropist."

Other regular donations to the reading room are as follows:

Anti-vivisection organ.

Boston & Maine Railroad Men, from Railroad Y. M. C. A.

Christian Register from Woman's Unitarian Alliance.

Christian Science Journal from Mrs. Eddy.

Cook's Excursionist.

Denver Evening Post.

Good Roads from League American Wheelmen.

Granite State Outlook from W. C. T. U.

Manifesto from Shakers.

New Earth.

Paradise of the Pacific.

Revue des Deux Mondes from Mr. S. C. Eastman.

Tennessee Univ. Magazine.

Southern Workman from Miss M. A. Downing.

Unitarian from Miss M. A. Downing.

Union Signal from W. C. T. U.

Volunteer from High School.

War Cry from Salvation Army.

Donors of books which have been accessioned in 1897 are Mr. H. H. Metcalf, Mr. John Kimball, Mrs. Mary A. Livermore, Mrs. Eddy, Mrs Helen Kendrick Johnson, Mrs. Carrie J. Blanchard, Mr. T. W. Balch, Mrs. A. M. Potter, the U. S. Government and City and State Departments.

Though the gentlemen of the Board are the ones to speak most fittingly of the services rendered the library by Judge Wm. L. Foster, for 14 years president of the trustees, I wish to add the librarian's tribute to his courteous, encouraging treatment of our staff.

The assistance of the rest of the library corps has continued most commendable. And gratitude is due the trustees for their faith that our planning and working has had only one aim—the good of the public.

Respectfully submitted,

GRACE BLANCHARD.

SANITARY DEPARTMENT.

REPORT OF BOARD OF HEALTH.

To His Honor the Mayor and the City Council: Gentlemen, —The report of the sanitary inspector which is herewith submitted, covers in detail the work of the health department during the year 1897. The statistics therein contained, show that our city was unusually fortunate during the year in all matters pertaining to the public health. The number of deaths resulting from diseases of a contagious nature was remarkably small, and our people were spared any serious epidemic of any character. The board are of the opinion that Concord's immunity in this respect, in comparison with other cities of equal population, can be accounted for in great part by the co-operation given by the public generally in carrying out the rules and regulations which municipal and state enactment has provided for safe-guarding the public health.

The work of the department has been carried on throughout the year without friction, and all matters requiring attention have been considered by the board and acted upon, without recourse to higher authority than that vested in the board.

The advancement each year in the compliance by the public with the sanitary regulations of the city is notable, and can but result in excellent sanitary conditions. In no respect is this more marked than in the faithfulness with which the regulations affecting quarantine are observed. On several occasions during the year, cases of contagious diseases appeared in localities and amid surroundings which would be likely to result in serious epidemics but for the greatest care by every one in guarding against the spread of contagion. In more than one in-

stance serious results could only be avoided by the greatest painstaking on the part of the infected families. It may be noted in this connection that a large number of the cases of contagious diseases which are brought to the attention of the health department owe their origin to exposure in other towns and cities, and our people are cautioned against carelessly imparting contagion in this manner. Especially is this important in the case of young persons leaving their homes to enter educational institutions.

The board has been unable to find a proper substitute for sulphur fumigation, although no effort has been spared in the direction of investigating the most promising agent offered,—formaldehyde.

A method adopted by the board to determine the efficiency of this proposed substitute is explained at length in the report of the sanitary officer.

Only words of commendation can be spoken for the faithfulness, industry and efficiency of Charles E. Palmer, sanitary inspector. He has carried out to the letter the instructions given him by this board, and has shown at all times the same fitness for his position, which the board have taken occasion to comment upon in former reports. The amount of labor which the sanitary inspector must perform in the discharge of the manifold duties imposed upon him requires earnest, constant and wisely directed efforts, and these, as the statistics of his report show, have not been withheld in any direction.

His report gives evidence that the improvement in the sanitary condition effected by the substitution of modern plumbing and drainage for the older and unsanitary systems shows no diminution, and the excellent sewerage system which the city has provided at a large expense, is taken advantage of by a very large percentage of property owners. The board has not departed during the year from its long established policy of insisting upon strict compliance with the regulations affecting house drainage, and in very few cases have its efforts in this direction met with opposition. The extension of the South End sewer, so-called, relieves that growing and beautiful section of our city from a serious impediment to development, and carries out sug-

gestions often made to this board and by it embodied in its annual reports. The results of analyses of Penacook water procured by the sanitary inspector with the approval of this board, demonstrate anew the excellence of Concord's water supply. The circumstances under which the samples were procured and the known ability of the chemist who has reported upon them, give great weight to the conclusions reached.

The thanks of the board are due his honor the mayor and your honorable body for co-operation given them throughout the year, and for courtesies extended to the board and its executive officer.

The bacteriological examination in the cases of patients suspected of having diphtheria have been attended throughout the year with results fully warranting this method of procedure. The board consider themselves very fortunate in having at their command the services of Dr. Arthur K. Day as bacteriologist. The fact of his residence in our city gives an advantage of several hours in the time necessary to determine the character of the cultures submitted for examination, and the board are thus able to learn of the presence of danger with the least possible delay.

E. A. CLARK, M. D.

E. N. PEARSON,

D. E. SULLIVAN, M. D.

Board of Health.

REPORT OF SANITARY INSPECTOR.

To the Board of Health:

I herewith submit my report as health officer for the year ending December 31, 1897, and present a summary of the work accomplished under your honorable body. Animated by an earnest wish to be able to cope successfully with the various difficulties that surround this important branch of the public service, my labors have been directed towards one common end,—to promote the public health, and to make more secure, day by day, the life, health and comfort of every citizen.

The work has proceeded during the year with almost absolute smoothness. We still can boast of a remarkably healthful city, as the year's record of vital statistics will show, and in comparison with that of other cities similarly situated. The total number of deaths was 349, the death rate being 13.95 per one thousand. In making up the death rate, deaths in public institutions and still-births are not included.

CONTAGIOUS DISEASES.

The following table shows the number of contagious diseases reported during each month of the year, and the deaths resulting therefrom:

MONTHS.	DIPH- THERIA.		SCARLET FEVER.		*TYPHOID FEVER.		MEASLES.	
	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.
January.....	9	1	11	2	12
February.....	1	3	22
March.....	3	17
April.....	4
May.....	1	1	11
June.....	28
July.....	22
August.....	1	1	4	11
September.....	3	1	6
October.....	2	3	4
November.....	2	1	2	1
December.....	1	2	1
Totals.....	13	1	22	1	17	2	138

*Typhoid fever brought to hospital from other places, ten; deaths, two.

COMPARATIVE TABLE.

The table following contains the number of cases of contagious diseases and the deaths resulting therefrom for the years since and including 1890:

YEARS.	DIPH- THERIA.		SCARLET FEVER.		TYPHOID FEVER.		MEASLES.		TOTALS.	
	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.
1890.....	6	2	9	17	5	6	38	7
1891.....	12	3	7	14	6	2	35	9
1892.....	13	3	37	3	7	1	2	59	7
1893.....	48	41	13	300	402
1894.....	17	3	113	6	13	3	21	164	12
1895.....	38	8	44	8	21	3	158	258	19
1896.....	55	8	4	15	5	452	526	13
1897.....	13	1	22	1	17	2	138	190	4

By a glance at the above table it will be seen that the number of cases of contagious diseases reported has increased since 1893, from the fact that an act of the legislature requiring physicians to report measles, and increases the penalty, for the failure of any householder or physician to report any of the above named cases to the board of health.

For the years 1890, 1891, 1892, but 37 cases of diphtheria were reported, with 8 deaths; in 1893, 1894, 1895, 1896, 1897, 171 cases were reported, with but 20 deaths, proving that in other diseases as well as in diphtheria, many cases existed up to the year 1893 which were not reported. The regulations for the restriction and prevention of such diseases have been effectually enforced with as little inconvenience to the people affected as possible. I have seen to it that all persons were supplied with the actual necessities of life, and very little hardship has resulted from the enforcement of the regulations.

The same method in making cultures from throats of patients

suspected of having diphtheria, has been continued during the year. Such work if properly done, cannot fail to be of great benefit, both in diagnosis of doubtful cases and also in determining the time at which patients suffering from the disease are no longer capable of transmitting it. Eighty-four bacteriological examinations have been made. Thirteen proved to be positive, nineteen negative, and fifty-two were re-examinations to determine when it was safe to discharge the patient. The expense for this branch of our work the past year has been \$134.45.

SCARLET FEVER.

Scarlet fever prevailed in a mild form during the months of January, February, March, May, August, November, and December. Several cases which appeared at Millville were the cause of some anxiety, but they were immediately quarantined and the spread of the disease was thus prevented.

TYPHOID FEVER.

As will be seen by reference to the table, there has been about the usual number of cases of typhoid fever, which were not confined to any particular locality. In response to several requests two analyses of the public water supply were made: Analysis No. 1 taken from West Concord; analysis No. 2, taken from the Reservoir.

SANITARY ANALYSES OF WATER.

FOR HEALTH OFFICER CHARLES E. PALMER, CONCORD, N. H.

SAMPLE NO. 1.

[The figures in the analysis represent parts per 100,000. To convert into parts per million, multiply by 10; into parts per U. S. gallon, by 0.583722; into parts per English gallon, by 0.7.]

ODOR.—Scarcely any.

COLOR.—Slightly yellowish.

TRANSPARENCY.—Clear.

BEHAVIOR DURING EVAPORATION.—Foamy.

APPEARANCE OF RESIDUE.—Nearly white with circles.

TOTAL SOLIDS.—5.8.

The amount of solids in water, sanitarily pure, varies greatly. Good well

water in this state seldom contains more than 15 parts. Good pond water contains less than half of this quantity.

IGNITION OF RESIDUE.—It blackens.

The residue blackens in proportion to the amount of organic carbon present, provided there is no excess of nitrates. Nitrates are present excessively more often in animal polluted waters; hence the residue of such waters blackens less than that of vegetable contaminated waters, both because animal matter contains less carbon as a rule, and because the nitrates supply oxygen to consume it quickly. Vegetable carbon often blackens intensely and the blackening persists.

LOSS OF IGNITION OF RESIDUE.—1.2.

This consists of the combustible and volatile portion of the organic matter, and volatile mineral substances,—carbonic acid, nitric acid, water of crystallization, zinc, and other volatile metals. The proportion of mineral solids is larger in well water than in pond water, because well water settling through the earth has come in contact with more soluble minerals. On the other hand, pond water contains more organic solids, because the soluble organic matter received from the surface of the ground has not been removed by the filtering action of earthy strata. It is seldom that the character and quantity of natural, mineral solids condemn a water. Vegetable matter is less harmful than animal matter. Both are more harmful in well water than in pond water, because light and sunshine tend to destroy deadly germs.

HARDNESS.—1.8.

ALKALINITY.—1.0.

The figures are given in terms of carbonate of lime, *i. e.*, so many parts of carbonate of lime would give the same figures. Hardness and alkalinity give considerable information about the mineral constitution of water and often concerning its sanitary condition. Hardness is due chiefly to the salts of lime and magnesia, most often, their carbonates and sulphates. Alkalinity is caused only by their carbonates, or by the carbonates of potash, soda, ammonia, or some other alkali. Water hard from the salts of lime and magnesia, other than their carbonates, shows no alkalinity, unless the substances last named above are present. The carbonates of lime, or magnesia, give nearly the same degree of hardness and alkalinity, lime especially. Sewage increases the alkalinity which then becomes an indication of pollution.

FREE CARBONIC ACID.—2.20.

COMBINED AND BICARBONATE CARBONIC ACID.—.88.

As the largest part of organic matter is carbon, so the largest product of decay is carbonic acid. Natural waters are weak solutions of carbonic acid. Through its agency the carbonates of lime, magnesia, iron, lead, and zinc, are dissolved and kept in solution in water. Expel the carbonic acid by boiling and these carbonates precipitate, rendering the water turbid and forming a scale on the kettle. Water which contains much decaying organic matter, contains much carbonic acid; hence polluted water attacks lead pipe more freely than pure water. Combined carbonic acid is that which is united with a metallic base, forming a carbonate; bicarbonate carbonic acid holds the carbonate in solution; the free carbonic acid is that which is simply dissolved in water.

FREE AMMONIA.—0.0024.

ALBUMINOID AMMONIA.—0.0216.

Ammonia results from the decomposition of organic matter; the free, is that which the natural process of decay has produced, and points to what extent decay has been going on in the water; the albuminoid results from the artificial decomposition of organic matter during analysis and points to the quantity of organic matter actually present. In good well water the albuminoid ammonia should not exceed 0.009 part, and in good pond water 0.015 part. In neither should the free ammonia exceed 0.005 part.

CHLORINE.—0.2.

Chlorine is a constituent of common salt. Sewage is rich in salt, hence the value of chlorine as an indication of pollution. Good water should not contain more than 0.5 part of it, unless the locality is near the sea coast, or is naturally rich in salt.

NITRIC ACID.—0.05.

This is a constituent of saltpetre which is produced by the fermentation of manures and sewage. Good well water should not contain more than 0.5 part of it, and pond water not more than 0.02. Excess of chlorine, or nitric acid, in water always indicates either actual contamination, or dangerous proximity to sources of filth. In this case, the water contains filtered sewage. Nitric acid often results from the oxidation of ammonia, or vegetable matter. If the quantity of chlorine is normal while the nitric acid is excessive, the water is probably contaminated with vegetable matter, unless other results deny it.

NITROUS ACID.—None.

This is a lower oxide of nitrogen than nitric acid. It is a transition product between ammonia, or organic matter, and nitric acid. Its presence shows that the source of pollution is so near that time enough has not elapsed for the complete oxidation of its nitrogen in its progress toward the water supply. Good water should contain none of it, or but a mere trace.

OXYGEN CONSUMED IN OXIDATION.—0.284.

Good well water should require less than 0.1 part of oxygen, and good pond water less than 0.2 for the oxidation of its dissolved organic matter. In no case should it exceed 0.4. Some bad waters may require less than 0.05 part. Vegetable material, comparatively richer in carbon than animal substances, requires more oxygen for oxidation; while animal substances, being richer in nitrogen, yield more ammonia and other nitrogen compounds.

POISONOUS METALS.—None.

Water should not contain more than 0.03 part of lead, or copper, or more than 0.05 part zinc.

IRON.—Strong trace.

Good water ought not to contain more than 0.1 part iron.

SEDIMENT.—Considerable.

Good water should deposit no sediment, or scarcely any.

MICROSCOPIC EXAMINATION AND BIOLOGICAL CHARACTER OF SEDIMENT.—Fresh water plants—Infusoria.

NUMBER OF BACTERIA PER CUBIC CENTIMETRE GROWING AT BLOOD TEMPERATURE IN ALKALINE AGAR MEDIUM.—11.

NUMBER OF BACTERIA PER CUBIC CENTIMETRE GROWING AT BLOOD TEMPERATURE IN AGAR MEDIUM CONTAINING PARIETTI'S SOLUTION.—None.

Disease germs grow at the temperature of the body. Many harmless bacteria also flourish at this temperature. If a sample of water contains none which grow at this temperature, disease germs are evidently absent. The disease germ more usually found in waters of this latitude is the typhoid bacillus. The bacillus coli communis, whose original habitat is in the intestines, though not strictly a disease germ, is preëminently the sewage bacterium, and consequently all waters in which it is found should be condemned. The presence of any other sewage bacterium should also condemn a water for drinking purposes. The typhoid bacillus, the coli communis, and a few others will grow in agar medium, containing Parietti's solution, but to distinguish and identify them, special cultures and examinations must be made. Bacteria multiply very rapidly after water is taken from its source and raised to summer temperature. Since the kind of bacteria is more important than their number, the delay necessarily caused by transportation of the sample if not too long, is favorable instead of objectionable, because a very few disease

germs in a large quantity of water might escape discovery, but detention of them would be much more certain after their multiplication.

DISEASE GERMS.—None.

There is more albuminoid ammonia, and more oxygen is required for oxidation than desirable, but the organic matter in solution is vegetable, and I think in this case it does not render the water injurious.

EDMUND R. ANGELL.

December 8, 1897.

SAMPLE NO. 2.

ODOR.—Scarcely any.

COLOR.—Little yellowish.

TRANSPARENCY.—Clear.

BEHAVIOR DURING EVAPORATION.—Foamy.

APPEARANCE OF RESIDUE.—Little yellowish and circles.

TOTAL SOLIDS.—4.0.

IGNITION OF RESIDUE.—It blackens.

LOSS OF IGNITION OF RESIDUE.—1.6.

HARDNESS.—1.8.

ALKALINITY.—1.0.

FREE CARBONIC ACID.—1.36.

COMBINED AND BICARBONATE CARBONIC ACID.—.88.

FREE AMMONIA.—0.0064.

ALBUMINOID AMMONIA.—0.0204.

CHLORINE.—0.2.

NITRIC ACID.—0.05.

NITROUS ACID.—None.

OXYGEN CONSUMED IN OXIDATION.—0.271.

POISONOUS METALS.—None.

IRON.—Strong trace.

SEDIMENT.—Some.

MICROSCOPIC EXAMINATION AND BIOLOGICAL CHARACTER OF SEDIMENT.—
Mineral particles—Diatoms—Fresh water vegetation.

NUMBER OF BACTERIA PER CUBIC CENTIMETRE GROWING AT BLOOD TEMPERATURE IN ALKALINE AGAR MEDIUM.—9.

NUMBER OF BACTERIA PER CUBIC CENTIMETRE GROWING AT BLOOD TEMPERATURE IN AGAR MEDIUM CONTAINING PARIETTI'S SOLUTION.—None.

DISEASE GERMS.—None.

The same remarks apply to this as to No. 1.

EDMUND R. ANGELL.

December 8, 1897.

MEASLES.

During the year the prevalence of measles has not been as great as in 1896, and no deaths resulted therefrom. I think nearly all the cases were reported. Although there are many cases that are not seen by any physician, householders have been prompt to comply with the law, in reference to reporting such cases.

DISINFECTION.

The work of disinfection has been carried on as heretofore. Much attention has been given by our bacteriologist, Dr. A. K. Day, and myself to testing the practical use of formaldehyde gas. Dr. Day says of our experiments:

"At the suggestion of Mr. Palmer, some experiments have been made during the past year to determine the efficacy of formaldehyde gas as a disinfectant, when produced by some of the apparatus at present in the market. The conditions aimed at were such as would exist in any ordinary dwelling to be disinfected,—small rooms of a capacity of 800 to 1,600 cubic feet, with simply such closing of leaks as could be easily effected, no attempt being made to make the apartments air-tight. The lamps used were the Moffatt formaldehyde generator and Professor Robinson's formaldehyde lamp. Two quarts of wood alcohol were used in each experiment. The tests consisted of exposing cultures of various disease germs to the action of the gas.

"In some instances glass slides smeared with the cultures were used; in others, sterile culture tubes of blood serum were inoculated with the bacteria and freely exposed to the gas. In no case was the experiment a success, as far as disinfection was concerned; the inoculated tubes, after an exposure of twelve hours or more to the formaldehyde vapor, produced an abundant growth when placed in the incubator at 37 degrees Centigrade, while the culture tubes inoculated from the slides that had been exposed, produced equally abundant cultures. These experiments repeated several times, and always with the same result, have rendered me very skeptical as to the safety of adopting any of the formaldehyde generators at present on the market."

HOSPITAL FOR CONTAGIOUS DISEASES.

The importance of establishing a hospital for persons suffering with disease dangerous to the public health has been recommended and discussed in your annual reports. While the need of such an institution may not have been so great during the past year, such a hospital is absolutely needed, and should be in

readiness to perform its functions in times of need, becoming a means of protection to the community at large. I again present this subject for your early consideration.

NUISANCES, COMPLAINTS, INSPECTIONS.

The number and nature of requests for investigation and complaint of existing nuisances, and those found by house inspection, are shown by the following table:

Accumulation of decayed fruit, coal ashes.....	22
Bad well-water.....	1
Bad sink-drainage.....	15
Broken sewer-traps.....	7
Catch-basins not trapped.....	19
Dead animals.....	23
Decayed meat and fish.....	9
Defect in house-sewer.....	7
Dumping rubbish.....	23
Dropping manure in street.....	5
Defective plumbing.....	22
Filthy stables.....	11
Filthy cellars.....	9
Filthy swill barrels.....	3
Filthy yards.....	16
Filthy alleyways.....	7
Foul and offensive cesspools.....	9
Keeping hogs.....	10
Keeping hens.....	9
Offensive manure-heaps.....	10
Offensive privy-vaults.....	45
Odors arising from water.....	10
Offensive odor in house.....	24
Offensive odors from stables.....	9
Privy vaults full.....	23
Private sewers obstructed.....	11
Sinks found without traps.....	8
Sewer-gas in house.....	3
Stagnant water on vacant lots.....	5
Street-sewer obstructed.....	7

Sewers not properly ventilated.....	11
Slaughter houses.....	3
Surface sink-drains.....	7
Throwing swill in alleyways.....	3
Throwing swill in ash-barrels.....	8
Throwing ashes in street.....	4
Throwing slops into street.....	2
Water-closets without water supply.....	11
Water-closets foul and offensive.....	15
Water-closets not ventilated.....	9
Water-closets out of repair.....	7
Water in cellars.....	27
Sewerage backed into cellars.....	27
Total	516

The fore-going complaints include the main sources of nuisance in the city.

No matter how trivial a complaint may be, or in what form it is presented, it has received careful investigation, and orders have been issued for abatement.

It is worthy of note that in not a single instance has it been necessary to invoke the penalties of the law in order to secure compliance with its requirements, which is certainly very creditable to our citizens.

HOUSE INSPECTION.

The inspection of blocks and dwellings has been done as thoroughly as time would allow. With the calls for the inspection of premises complained of, the inspection of private sewers, care of contagious diseases, and the amount of work required in the office, it is impossible for the health officers to inspect the entire city annually. I have endeavored to carry on this work where it appeared that the most improvement in the sanitary condition of premises could be made. The removal of vaults and substitution of water-closets, the ventilation of house plumbing, and the addition of traps under fixtures, have been marked features in the improvement noted. A striking practice disclosed by these examinations is the placing of water-

closets in cellars under stairs, and in dark halls where daylight and ventilation cannot well be secured. These examinations have shown poor construction and repairs in old houses, and faulty construction in new ones also. The question of more stringent regulations for this work has often been recommended to the city council, as the board of health has no authority to order any special kind or quality of work and can only insist that leaks shall be stopped.

PREMISES INSPECTED.

Private dwellings.....	89
Tenement houses.....	174
Stores	67
Stables	49
Markets	5
Factories	8
Hotels	2
Schoolhouses	15
Business blocks.....	47
Alleyways	33
Inspections made at Penacook lake.....	12
Inspections made at reservoir.....	26
Total	527

SEWER INSPECTION.

In compliance with the provision and requirement of the city ordinance, ninety-seven sewer inspections have been made, providing for 105 buildings. A complete record has been filed in the office of the board of health and copies sent monthly to the city council. These records are found to be of much service to persons who are obliged to dig up the sewer on account of obstruction or other causes. The following table shows the various sizes and kinds of pipe used:

	1,126	feet	of	15	inch	akron	pipe
	359	"	"	8	"	"	"
	935	"	"	6	"	"	"
	4,208	"	"	5	"	"	"

528	feet	of	4	inch	Akron	pipe
65	"	"	8	"	iron	"
125	"	"	5	"	"	"
200	"	"	4	"	"	"
50	"	"	2	"	"	"

A total of 7,596 feet, or an average of about 79 feet for each lateral sewer.

This amount of drainage has been furnished to the following classes of buildings:

Private dwellings.....	47
Tenement houses.....	42
Business blocks.....	9
Factories	5
Churches	1
Stables	1
Total	105
Water-closets put in.....	154
Privies abolished.....	81
Cesspools abolished.....	24
Surface drains abolished.....	29

SEWERAGE SYSTEM.

Additions to this system have been made in various parts of the city, the most important ones being the so-called "South End" sewer, which extends to the west end of the city and will provide for a large number of dwellings and public institutions. Fifteen houses have already been connected and many others will avail themselves of the opportunity as soon as the season opens the coming year.

SUMMARY.

Houses placarded in cases of contagious diseases.....	149
Placards removed.....	149
Visits made to cases of contagious disease.....	646
Funerals attended.....	2
Rooms fumigated.....	184
Pieces of bedding burned.....	63

Pieces of clothing disinfected at pest-house.....	147
Pounds of sulphur used in fumigating.....	450
Burial permits issued.....	
Burial permits issued to non-residents.....	70
Transfer permits issued.....	105
Certificates issued for children to return to school.....	53
Peppermint tests of plumbing made.....	21
Number of reports of contagious diseases sent to state board of health.....	52
Number of monthly mortuary reports sent in exchange to other cities.....	984
A table appended exhibits the mortuary statistics for the year 1897.	

I most respectfully return sincere thanks to his honor the mayor and members of the city council, to the board of health, and to other city officials for many courtesies shown me in dealing with matters relating to the health department.

Respectfully submitted,

CHARLES E. PALMER,

Sanitary Inspector.

REPORT OF CITY PHYSICIAN.

To His Honor the Mayor and City Council:

I have the honor to submit herewith my first annual report for the year ending December 31, 1897:

Number of visits.....	59
Children vaccinated.....	36
Office consultations.....	3

Respectfully,

CHANCEY ADAMS,
City Physician.

POOR DEPARTMENT.

THIRTIETH

ANNUAL REPORT OF OVERSEERS OF THE POOR

FOR YEAR ENDING DECEMBER 31, 1897.

To the City Council:

Gentlemen,—The undersigned herewith submits the thirtieth annual report of expenditures for the poor, including Wards 1 and 2, for the year ending December 31, 1897, as follows:

Families and individuals having a settlement in the city have been aided, in part or in full, during the time, to the amount set opposite their respective names.

Glanville Tonkin.....	\$ 20.00	
Mrs. Thomas H. Clark.....	313.67	
Samuel Truett.....	42.20	
Elmer S. Quimby.....	13.97	
Peter Keenan.....	26.50	
Mrs. Charles Dennen.....	32.58	
Dennis Donovan.....	15.70	
Ernest Beliveau, paid State Industrial School	78.00	
James Clinton.....	14.00	
Lydia S. Couch.....	21.40	
Mrs. J. B. Tyler.....	14.80	
George V. Perry.....	15.00	
Elizabeth R. Curtice.....	12.00	
Mrs. G. S. Wilson.....	6.17	
William S. Paige.....	12.00	
Patrick Keenan paid St. Patrick's Orphan- age	21.67	
Josiah Littlefield paid County of Cheshire	81.35	
		<hr/>
		\$741.01

COUNTY POOR.

Mrs. Stephen Young.....	\$ 5.81
James H. T. Crague.....	133.11
Kate Dornan.....	104.94
Mrs. A. E. Hoyt.....	68.58
Mrs. O. Philbrick.....	76.96
Mary Byrne.....	84.00
J. W. Richardson.....	8.00
Bridget Collins.....	75.62
Mary Collins.....	3.70
Robbins T. Orr.....	166.35
Mary J. Paine.....	56.00
Mrs. J. Melanson.....	104.63
Coleman Bray.....	166.40
Maxim Melanson.....	154.27
Chester F. Laird.....	68.62
Clarence E. How.....	35.00
John Storin.....	104.00
Annie Rushlow.....	123.00
Frederick Paradis.....	213.07
Samuel Truett.....	129.59
Charles H. Cook.....	55.99
W. G. Tandy.....	32.96
Glanville Tonkin.....	40.00
Lydia S. Couch.....	88.88
Joseph Benoit.....	46.22
Levi Chenette.....	5.93
Mary Dorgan.....	11.50
Frank Bordeau.....	22.69
Elmer S. Quimby.....	14.99
Sarah Abbott.....	21.65
B. G. Tucker.....	41.54
Benjamin Cahir.....	12.00

The organization of the police department at the present time is as follows :

POLICE COMMISSIONERS.

Charles C. Danforth, Giles Wheeler, Josiah E. Dwight.

G. Scott Locke, city marshal.

James E. Rand, assistant marshal.

Daniel S. Flanders, captain night watch.

Fred M. Eaton, regular police and night watchman.

Whitney D. Barrett,	"	"	Penacook.
---------------------	---	---	-----------

James Kelley,	"	"	"
---------------	---	---	---

John E. Gay,	"	"	
--------------	---	---	--

Charles W. Hall,	"	"	
------------------	---	---	--

Charles H. Rowe,	"	"	
------------------	---	---	--

John G. Putnam,	"	"	
-----------------	---	---	--

Samuel L. Batchelder,	"	"	
-----------------------	---	---	--

SPECIAL RESERVE OFFICERS.

George H. Silsby, captain.

John T. Batchelder,	William R. Green,
---------------------	-------------------

O. H. Bean,	Alvin H. Urann,
-------------	-----------------

Willie A. Little,	Harvey H. Oakes,
-------------------	------------------

W. A. Flanders.	George N. Fellows,
-----------------	--------------------

George W. Chesley,	Abiel C. Abbott,
--------------------	------------------

W. H. H. Patch,	Thomas P. Davis,
-----------------	------------------

Hoyt Robinson,	Irving B. Robinson,
----------------	---------------------

George D. Worth,	Charles E. Kelley.
------------------	--------------------

I will renew my recommendation for a stable suitable for a horse, wagon and ambulance.

It can be built after the same architectural design as the police station for \$1,000.

A telephone line from the South end to Penacook would be of great assistance to this department, and could be built for \$500.

In submitting my report I desire to express my gratitude to the board of police commissioners, His Honor Mayor A. B. Woodworth, and the city council for their considerate treatment of this department. Thanks are due to Harry G. Sargent, city solicitor, for valuable assistance rendered.

To all who have contributed to our success we extend our thanks.

To the members of the force my grateful acknowledgment and thanks are tendered, for their efficiency and promptness in the discharge of their duties.

Respectfully submitted,

G. SCOTT LOCKE,
City Marshal.

Report of Clerk of Police Court.

To the City Council:

I submit the following report of the Police Court for the year 1897:

Number of civil cases entered.....	123
Received for entry fees.....	\$61.50
trials and continuances.....	14.25
	<hr/>
	\$75.75
Paid city treasurer.....	\$75.75

GEO. M. FLETCHER,
Clerk of Police Court.

Report of City Solicitor.

To the City Council: I hereby submit my annual report as solicitor :

The case of "Mary J. Gay et al v. Concord," pending at the date of my last annual report, is still undisposed of, no action having been taken by the plaintiff to bring the case to a trial, but it probably will be disposed of within a month or two.

The suits against the bondsmen of Albert I. Foster pending at the date of my last annual report, were terminated on account of the compromise agreement made by the city council to accept 33 1-3 per cent. in full settlement of the amounts claimed against the bondsmen.

In April, 1897, Trueworthy L. Fowler commenced a suit against the city to recover damages for injuries to his horse, caused as alleged, by negligently leaving unfastened the cover of a sewer. The amount of damages claimed is \$50. Arrangements are being made for a compromise of this suit, and it will probably be disposed of in a short time.

In December, 1897, claims against the city were filed with the board of mayor and aldermen, in favor of Arthur Henry, Edmund M. Proctor, Laura P. Clough, and John Callahan, for damages caused by surface water, as alleged, on account of the raising of Pine street. These claims altogether amount to \$2,000. Under my advice, by agreement with counsel representing the claimants, these claims will be tried by a referee, whose decision will be final.

During the year advice and assistance have been furnished by me to the officers of the different departments of the city government, as requested.

HARRY G. SARGENT, City Solicitor.

Concord, N. H., December 31, 1897.

Report of Police Commissioners.

The following is a report of the doings of the Police Commissioners for the year ending Dec. 31, 1897:

April 30, 1897. Met at the office of Morrill & Danforth. The resignation of Charles E. Kelley, a regular police officer, was presented and accepted.

H. C. Oaks, George N. Fellows and Oliver Tappan were appointed special police officers.

Adjourned, to meet at the call of the chairman.

May 11, 1897. Met at the office of Morrill & Danforth. John G. Putnam was appointed a regular police officer.

Adjourned, to meet on call of the chairman.

August 2, 1897. Met at the office of Morrill & Danforth. Thomas P. Davis and Irving B. Robinson were appointed special police officers.

Adjourned, to meet on call of the chairman.

December 21, 1897. Met at the office of Morrill & Danforth. The resignation of Eugene H. Davis, a special police officer, was presented and accepted.

Samuel L. Batchelder was appointed a regular police officer.

Charles E. Kelley and Milton Colby were appointed special police officers.

Adjourned, to meet on call of the chairman.

GILES WHEELER,
Clerk Police Commission.

Report of City Liquor Agent.

To the City Council:

In compliance with Section 10, Chapter 112, of the Public Statutes of this State, and the resolution of the Board of Mayor and Aldermen of May 26, 1888, establishing this agency, I respectfully report the transactions of this office for the year 1897.

ON HAND JANUARY 1 AND PURCHASED DURING THE YEAR 1897.

Wines and liquors on hand January 1 per report was 225 gallons, 100 bottles liquors and malt liquors	\$1,203.46
Purchased of Geo. W. Weeks, liquor commissioner, wines and liquors, 448 4-8 gallons, 108 bottles liquors and malt liquors.....	1,314.84
Total, 673 4-8 gallons, 208 bottles liquors and malt liquors.

Cash deposited with city treasurer.....	\$1,975.00	
Cash on hand January 1, 1898.....	9.70	\$1,984.70

Respectfully submitted,

MOSES LADD, Liquor Agent.

PUBLIC PARKS.

REPORT OF PARK COMMISSIONERS.

The park commissioners submit herewith their annual report for the year ending December 31, 1897:

The appropriations for the last year were made as follows:

White Park,	\$3,250.00
Rollins Park,	750.00
Penacook Park,	100.00
Parks and commons,	175.00

WHITE PARK.

The most marked improvement at White Park during the season has been the completion of the stone bridge and the surroundings, making a most harmonious effect. The increase of completed area in the park brings with it an increased expense for maintenance. Much filling has been accomplished this year and sub-draining. The season was so wet last summer that the necessity of a water supply was not needed, yet that cannot always be counted upon and provisions will have to be made to meet any emergency.

The improvements have reached such a stage that any marked improvement gives a completeness to the plan which has been followed, so that the coming year this new work should be increased. There are important additions that should be made at an early date: First, the completion of the play-ground with the accessories to such a place in the way of bicycle paths, tennis courts, etc. This is needed very much as it has been so difficult to exercise control over the other parts of the park. People, not perhaps always wilfully, but thoughtlessly, do that which has caused much time and labor and which

is, to say the least, aggravating to the commissioners and superintendent to see destroyed. It would seem the best way to provide certain localities for certain purposes, and that would in a more or less degree obviate any complaint.

Another needed improvement, which is a necessity, is the building of a tool house, in which to house and protect the property of this department, which now suffers from lack of sufficient protection. This can be built at an expense of not over \$600.

Another improvement is the great need of a combination shelter and public comfort building at the entrance of Pine street, which can be constructed in a very substantial and artistic manner for a reasonable figure. The commissioners have had plans made along these lines, and hope that they will be able under the appropriation that will be made this year to carry out these needed improvements.

The temporary fence has been extended to the corner of Beacon and White streets, along which have been planted a row of Lombardy poplars, which will be a great feature of that part of the park. The commissioners would also call attention to that piece of ground which belongs to the park, but which the city has not paid for, and they would suggest that an appropriation should be made for this.

The wet season has developed more or less malaria upon that part of the ground which has not as yet been reclaimed, and this was the cause of a serious illness which incapacitated our superintendent for a few months.

The appropriation has been exceeded by a small amount, which came about from some unpaid bills of the previous year, which could not be gotten in.

ROLLINS PARK.

The appropriation at Rollins Park has been insufficient to carry out the desires of the committee in charge. The needs of this park demanded the services of a man continuously, so that during the summer there has been a man on the ground all the time working out the contemplated improvements, also taking charge of the park. A very attractive artificial pond has been constructed and shrubs and trees have been planted; water has

been introduced, providing a drinking fountain. Tables have been erected and seats placed in different parts of the park. The right has been obtained to use a spring in an adjoining piece of land, and a pump has been put in to draw the water.

During the season the commissioners have consulted with landscape architects, and as a result of this a rustic shelter has been constructed in the center of the park, which will prove a very attractive feature. Other pieces of rustic work are contemplated. Plans have also been submitted to the commissioners for the improvement of other parts of the park, including a system of ponds and walks. This will necessitate a greater expenditure than we have heretofore made, but the features already incorporated in the park, and the popularity of the same, have demonstrated the wise use of the funds.

The appropriation has been exhausted and over-run, but comes within the original appropriation which has been received heretofore.

PENACOOK PARK.

The appropriation for Penacook Park has been exceeded by \$3.72. The income has been less from different sources from this park and some needed repairs have been made which has caused this; otherwise, the same results have been obtained as last year, the care consisting mainly in keeping the grounds clean and the buildings in repair.

PARKS AND COMMONS.

The piece of ground which has been developed under the head of parks and commons has been given a fitting and appropriate name by the city government as Bradley Park. The amount appropriated for this piece of improvement, which was begun the previous year, was insufficient, as a correct estimate could not be made as to its completion. However, the appropriation was not over-run very much, and the completion of the park has been very satisfactory and only demonstrates what can be done along the same lines in other sections of the city,—the more we have of just such bits of adornment, the more attractive will our city become.

The tract which has been recently donated to the city at the West End can be made a very attractive spot, and we are glad to see that our citizens are beginning to appreciate the work already begun, and anticipate results which will arise from such improvement.

There are other pieces of ground which should be taken up at no late day and improved.

ALBERT B. WOODWORTH, Chairman.
JOHN F. JONES,
BENJ. S. ROLFE,
BENJ. C. WHITE,
WILLIS G. C. KIMBALL,
GEORGE A. YOUNG,
WILLIAM P. FISKE.

CEMETERY DEPARTMENT.

To the City Council: Your commissioners of cemeteries, in making their annual report, look with no little satisfaction upon the work accomplished during the past year. The larger part of the appropriation placed at our disposal has been expended in grading, and removing the unsightly gravel hill, which has so long marred the beauty of Blossom Hill Cemetery. The Old North Cemetery has been put in good condition and will need no great outlay during the coming year.

There have been one hundred and sixty (160) burials during the year, a fact that calls our attention to the rapidity with which our cemeteries are being occupied, and also testifies to the wisdom of your honorable body in providing for the future by the purchase of the additional land on the south of Blossom Hill Cemetery.

We had hoped that you could see your way clear to make an appropriation for a chapel and waiting room this year. Of its necessity there is no doubt. When we consider that almost all of the money appropriated for cemeteries finds its way back to the treasury of the city, it seems to us that such appropriation would meet with public favor, and therefore merit your early attention.

Having already made your appropriation for cemeteries, any suggestions from your commissioners would appear unnecessary. We had hoped for a larger one, but shall endeavor to expend what you have named in a manner to win your approval.

GEORGE O. DICKERMAN,
Secretary Board of Commissioners.

MILLVILLE CEMETERY.*To the Honorable Mayor and City Council:*

Financial report of the Millville Cemetery Committee:

These figures are taken from the blanks returned by those who have suffered loss by fire, and, small as the net loss apparently is, it is far larger than the facts warrant. In justice to the insurance companies and the fire department, hereafter, no net loss will be recognized in cases where the amount of insurance carried is sufficient to cover the loss, unless notice is given at the time of adjustment that said adjustment is unsatisfactory.

APPARATUS AND FORCE.

The apparatus and force of the department is as follows:

Precinct, located at the Central fire station, one first-class Amoskeag engine, "Eagle," with modern hose wagon, attached to Eagle Steam Fire Engine company (13 men); one second-class Amoskeag engine, "Kearsarge," and modern hose wagon, attached to the Kearsarge Steam Fire Engine company (13 men); one second-class Amoskeag engine, "Governor Hill," relief steamer, in charge of an engineer and fireman; one double 60-gallon Holloway chemical engine in charge of two permanent men; one ladder truck, "City of Concord," attached to hook and ladder company (21 men). There are ten horses owned by the city kept at this station. The precinct companies have swing harnesses upon all apparatus except steamers. There are six permanent men located at the Central station and one permanent man at each hose house within the precinct.

The Alert Hose company (11 men), located on Washington street, has a modern hose wagon with permanent man and horse.

The Good Will Hose company (11 men), located on the corner of Concord and South State streets, has a modern hose wagon with permanent man and horse.

Veterans' Auxiliary company (29 men).

The "Pioneer" steamer, at Penacook (28 men), is a fourth-class Silsby, with hose wagon.

The Cataract company (30 men), at West Concord, has a Hunneman 6-inch cylinder hand-engine, and a second-class 4-wheel reel, Amoskeag make, drawn by one horse, and provided with swing harness.

Old Fort company, at East Concord (30 men), has a 4 1-2-inch cylinder Hunneman hand-engine.

HOSE.

Fabric:	
Precinct	8,450 feet.
Penacook	2,200 "
West Concord	750 "
	<hr/>
	11,400 feet.
Leather:	
East Concord	450 feet.

PUBLIC RESERVOIRS.

	Capacity, cubic feet.
1. Main street, opposite Abbot-Downing Co.'s.....	1,000
2. Main street, middle front state house yard.....	1,500
3. Main street, rear city hall.....	2,000
4. State street, corner of Washington street *.....	2,000
5. Rumford street, near Mrs. Josiah Minot's.....	1,000
6. Orchard street, corner of Pine street *.....	4,000
7. School street, corner of Summit street *.....	3,500

* Brick, cemented.

While the number of alarms has exceeded all previous records it has been the city's good fortune to enjoy comparative immunity from fire loss.

The apparatus is in good condition. The supply wagon has been retouched and varnished.

Steamer Gov. Hill has been thoroughly repaired.

Steamer Pioneer has been painted and varnished.

This was done by B. J. Cate, permanent driver, and is a very creditable piece of work.

The apparatus rooms at the Central Fire Station have been painted. A new set of flues has been placed in the stationary boiler at the Central Fire Station, and the chimney rebuilt from the roof to top.

Two horses, five dozen aluminum fire hats and a chief's wagon have been purchased.

All of the hose purchased prior to the year 1893 has been tested and eleven hundred feet have been relined. Sixteen hundred feet are being re-lined at present.

The fire alarm telegraph system is in good condition. The storage battery is doing, in an excellent manner, all that is required of it.

Four fire alarm boxes and three direct action tappers have been added to the system and the main line has been extended about one mile.

There are still large areas unprotected by fire alarm boxes and I respectfully recommend that three boxes, at least, be added to the system during the coming year.

In the interest of economy and safety new heating apparatus should be placed in the Good Will Hose house and the Old Fort Engine house, the former consuming fuel at a ratio disproportionate with results obtained, and the latter being not only unsatisfactory but unsafe.

Respectfully submitted,

W. C. GREEN,
Chief Engineer.

ROLL OF THE FIRE DEPARTMENT.

Report of the History Commission.

The history commission is able to report gratifying progress the past year in both the preparation of the material for the city history and in the securing of subscriptions therefor. It is the expectation of the commission that the history will be completed and in the hands of the printer before the close of the present year. There have been no more delays and disappointments in this work than are usual in undertakings of this kind. The commission has pursued the plan marked out by it in the beginning, and conducted the enterprise upon a business basis, believing that the work, undertaken under the auspices of the city government, could be made to pay for itself. In this plan they have received the cordial coöperation of our citizens in many ways. The members of the history commission and of the present city government headed the subscription lists, and several of those who were invited to assist in the preparation of material have contributed their articles without expense to the city. The subscriptions have already exceeded the amount advanced by the city government, and there is now every reason to believe that whatever is advanced by the city to pay for the preparation and publication of the history will be returned to it immediately after the history is put on sale.

JAMES O. LYFORD,
Secretary.

The Auditor's Report.

The ordinance creating the office of auditor and defining his duties has been in force nearly two years, and a brief review of the work accomplished under it may not be amiss at this time. The retirement of the present occupant of the position at an early day permits him to speak with entire freedom of the duties of the office and of the system of conducting the city business, which has been the outgrowth of this ordinance. At the time the ordinance was passed, nearly all of the departments drew their appropriations in bulk and made their disbursements directly to their employés, paying all bills or expenses incurred, and, at the end of the year, returning their vouchers to the city clerk. An annual examination was made of the accounts of the city treasurer and city clerk, but, until after the auditor ordinance, no general examination was made of the several departments. With the exception of the tax collector for the years 1891 to 1895, there is no reason to believe from subsequent examinations made that these departments were conducted otherwise than honestly and with due regard to the interests of the city. In changing the system from that of several treasurers to one, and requiring all disbursements to be made directly by the city treasurer upon orders of the city clerk, the auditor has met with the coöperation of every department, and so satisfactorily has the system worked that not one of these departments would return to the old methods of paying the bills of the city.

In accordance with the spirit of the auditor ordinance, there has been a radical change in the method of making appropriations for the several departments. Until 1897, these appropriations were made in lump sums for each department, without specifying how the money should be used. Each department

was the sole judge of its purchases within the scope of its appropriation. The estimates made by them at the beginning of the year were general in their character, indicating little more than the gross sum that would be needed for the department during the fiscal year. A system of transfers prevailed by which, at the close of the year, the unexpended balances of one department could be used for another that had exceeded its appropriation. If the department kept within its appropriation, it was assumed that it had done well. The public, who knew nothing of the details, judged the several departments by the gross sums that were appropriated for their service. When it was first proposed to itemize the appropriation bills, it was urged by some of the departments that it would be difficult to estimate for the entire year; but the record of the year shows that these estimates were made with an intelligent knowledge of the needs of the departments, for in very few instances did it become necessary, at the close of the year, to modify the appropriations made at the beginning. There is another advantage to this method of making appropriations which is appreciated by all of the departments, and that is that the public thoroughly understands at the beginning of the year how it is proposed to expend the appropriations; and that, while the aggregate in some instances may seem large, the departments are relieved of criticism when a scrutiny of the specific items shows that there is neither extravagance nor wastefulness.

The method of keeping the accounts of the city has been made to correspond with this detailed system of appropriating the money, so that the books of the auditor show at any time the exact standing of each individual item of the appropriation bill. Each department has been furnished with a book that corresponds in form to that kept by the auditor, thus enabling it to have as complete knowledge as the auditor of the expenditures made under each item.

Before the passage of the auditor ordinance, some of the departments were in receipt of funds popularly known as the "earnings" of those departments, which, though deposited in the treasury, were expended by them in connection with their appropriations. These funds are now no longer deposited to

the credit of these departments, but follow the course of other receipts of the city, and can only be used upon vote of the city government. The cost of each department is therefore entirely shown in the appropriations made therefor.

The auditor being a salaried official, his services have been very properly called in requisition by the city government and its committees for work that was formerly done by these committees. The members of the city government receive no pay for their services as such, and only a nominal compensation for committee work. Being for the most part busy men, they have felt that more time could be given and fuller investigations made by the auditor than if the work were performed by themselves. The principal work of the auditor in examining the accounts of the departments is necessarily in the tax collector's office. Here a new system of receipts has been instituted, with the approval of the city government and of the board of assessors. In brief, it comprises receipt books for each ward, in the form of a check book, which are prepared by the auditor from the list book as submitted by the assessors. The stub contains the same information as the receipt, and the latter bears on the back thereof the official certification of the auditor. Before this method was introduced, no satisfactory examination of the tax collector's books could be made until near the close of the year, except by making inquiries of all tax payers whose taxes appeared unpaid. This was not feasible until near the close of the fiscal year, because the greater number of the tax payers do not pay their taxes until after the time of discount has expired. The present system would be more perfect in its accountability if some change could be made in the method of collecting poll taxes. At present, the tax collector practically waits upon the convenience of the tax payer who pays simply a poll tax, and the small fee of twenty cents which he is authorized to collect of delinquents who do not pay by the first of September, is undoubtedly the hardest earned of his compensation. It is probably not feasible to make a change this year, but another year it may well be the subject of consideration.

When the office of auditor was created, there was but a vague impression in regard to its duties. An examination, however,

of the auditor ordinance, which is republished in this report, will, with this resumé of what has been accomplished, give a pretty clear idea of the importance of the office and the time taken in the discharge of its duties. It is a position second to none in the city government, and it calls for the exercise of judgment and tact as well as a thorough knowledge of city affairs. The mere examination of bills and accounts as they are presented is but a small part of its labor, and it is an office that can be made valuable or valueless to the city according to the character of its occupant. The legislature of the state, several years ago, authorized cities to create the office, and, in the cities of this state and other states where such an officer has been employed, the conviction prevails that his salary is an economical expenditure of money in the results attained. Naturally, changes made by the auditor in the system of doing business in a municipality would be more marked the first year or two after the creation of the office; yet any new incumbent of the position here should enter upon his duties with the expectation that still further improvements can be made, which will suggest themselves to him as he familiarizes himself with the work and which will meet the approval of the city government when they are thoroughly understood.

In leaving the office, the present incumbent desires to express his deep obligations to the mayor, the members of the city council, and the heads of all departments, for the kindly manner in which they have received his suggestions of changes—and for the cordial coöperation with which they have aided him in the discharge of his duties.

JAMES O. LYFORD,
City Auditor.

Auditor Ordinance.

CITY OF CONCORD.

In the year of our Lord One Thousand Eight Hundred and Ninety-Six.

AN ORDINANCE ESTABLISHING THE OFFICE OF CITY AUDITOR, DEFINING HIS DUTIES, PROVIDING FOR HIS APPOINTMENT AND PAY, AND ALSO IN AMENDMENT OF CHAPTERS 4 AND 37 OF THE REVISED ORDINANCES RELATING TO FINANCES AND ACCOUNTABILITY IN EXPENDITURES AND THE SALARY OF THE CITY CLERK, AND CHAPTER 33 OF SAID REVISED ORDINANCES RELATING TO PRINTING OF THE CITY REPORTS.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. There shall be appointed at the commencement of each municipal term a joint standing committee on accounts and claims, to consist of two members of the board of aldermen and two members of the common council. There shall also be appointed by the mayor, with the approval of the board of aldermen, at the commencement of each municipal term, an auditor, who shall continue in office during said term and until his successor is appointed and qualified.

He shall give bond satisfactory to the board of mayor and aldermen in the sum of two thousand dollars (\$2,000) for the faithful performance of his duties.

In case of any vacancy by death, resignation, removal, or inability to perform his duties, a successor shall be appointed to fill out the unexpired term.

He shall receive in full for his services the sum of one thousand dollars per annum, payable monthly.

He shall occupy an office in the city building, and have the use of a safe belonging to the city.

SEC. 2. All accounts and claims against the city shall be laid

before said auditor, who shall carefully examine the same and see that they are correctly cast, and present the same, folded, filed, and numbered, with his approval endorsed thereon, to the committee on accounts and claims. No account or claim, except judgments of judicial courts, shall be received or acted upon by said auditor, or said committee, unless such account or claim shall be accompanied with the approval of the officer, committee, or agent authorized in behalf of the city to make the contract, or cause the expenditures to be made. In case there are bills or accounts which said auditor shall not approve, he shall present them to said committee on accounts and claims, with his reasons for refusing to approve the same. The committee shall then consider them, and allow or reject them as they shall see fit.

Said committee shall meet once, at least, in each month, and carefully examine and audit all accounts and claims so approved and laid before them, and shall allow and pass the same if found to be correct and justly due, and make report thereof to the city council.

All claims which are not otherwise provided for shall be referred to said committee, and their decision shall be laid before the city council for action.

The auditor shall keep a book in such manner and form as the said committee shall direct, wherein he shall enter the date and amount of every account and claim against the city as finally corrected and allowed by said committee; and also the name of the person to whom the same has been allowed, designating the fund or appropriation from which the same shall be paid. He shall be under the general control and supervision of the committee on finance and the committee on accounts and claims, in regard to the due and proper discharge of all his duties, and shall act as clerk of said committees and keep a proper record of their proceedings.

SEC. 3. The auditor, under the direction of the committee on finance, shall keep a book or ledger, in which he shall enter the various appropriations made by the city council, each under its appropriate head, and charge to each the different payments and expenditures which from time to time shall be made therefrom.

Whenever any appropriation has been expended, he shall immediately give notice thereof to the mayor, the city council, and to said committee on accounts and claims, and neither the auditor nor the committee shall pass or allow any claim or account

chargeable to such appropriation until the city council shall have provided the means of paying the same. The auditor shall also open an account with the city treasurer, charging him with the amount of loans to the city and all sums of money paid to him on behalf of the city; and also with all bonds, notes, mortgages, or other securities in the hands of the treasurer, or which may pass into his hands, belonging to the city, to the end that the amount and value thereof may, at any time, be seen on his books.

SEC. 4. No money shall be drawn out of the city treasury, except upon the written order of the mayor, addressed to the treasurer and countersigned by the city clerk, and numbered so as to correspond with the account or claim it shall be drawn to pay; and no account or claim against the city, arising from any contract or agreement for labor or for the purchase or sale of any materials, goods, wares, or merchandise in which any member of the city council, or any officer or agent appointed by the city council, or either branch thereof, has been directly or indirectly interested in a private capacity, shall be approved by the auditor or said committee, nor shall any order therefor be drawn upon the city treasurer, unless such contract or agreement shall have been authorized or ratified by the city council; but such restrictions shall not be construed to prevent the purchase of ordinary supplies from members of the city council who may be engaged in trade, nor the employment of the members of the council in their ordinary vocations, by duly authorized heads of departments.

SEC. 5. In all bills against the city, which shall be presented for payment, each item shall be specifically set forth; and no claim for medical services shall be allowed, unless such services were authorized by one or more of the overseers of the poor; and no claim shall be allowed and paid, unless approved by the city council. The mayor is hereby authorized to draw orders, countersigned by the city clerk, on the treasurer for the payment of all accounts and claims allowed, as provided in this chapter; but he shall not draw an order in payment for any services rendered or any materials furnished for any department beyond the sum specifically appropriated therefor by the city council.

SEC. 6. Any sum of money which shall have been specifically appropriated for the payment of principal or interest due on any

note or other security of the city, or for state or county taxes, may be drawn from the treasury, and paid by the order of the mayor, countersigned by the city clerk, for the purpose for which it was appropriated, without any action on the part of the committee on accounts and claims; and whenever it shall be necessary to pay money in advance on contracts made, or for work begun but not completed, the mayor, upon being satisfied of such necessity, may draw his order, countersigned by the city clerk, on the treasurer for a sum not exceeding five hundred dollars at any one time, taking a proper voucher for the same. The mayor, immediately after drawing the orders provided for in this section, shall notify the auditor thereof.

SEC. 7. Whenever any money shall be drawn from the treasury for the purposes specified in the preceding section, the auditor shall report the same and the amount thereof to the committee on accounts and claims at their next meeting, and shall charge the same under the appropriate head of expenditures.

SEC. 8. All city officers, who shall in their official capacity receive any money on behalf of the city from any source, shall pay to the treasurer the amount in their hands once in thirty days, or oftener if required, except the collector of taxes, who shall make such payment daily whenever the sum in his hands shall amount to five hundred dollars. All other persons, who shall at any time have money in their hands belonging to the city, shall forthwith pay the same to the treasurer. No money received under the provisions of this section shall be used by any department unless the same has been specifically appropriated by the city council.

SEC. 9. In all cases of the payment of money to the city treasurer, he shall give his receipt for the amount to the person paying the same, and shall forthwith deliver to the auditor a duplicate copy of said receipt, to be filed in his office. All city officers and agents receiving money in behalf of said city, shall deliver to the auditor, once in thirty days, a report in detail of the amount received, and what disposition has been made thereof, except in cases otherwise provided.

SEC. 10. The city treasurer shall keep, in a book provided for the purpose, an accurate and true account of all receipts and payments on behalf of the city, making the same conform, in mode of entry, as nearly as may be, with the accounts kept by the city auditor. He shall not pay any money out of the treas-

ury, except upon orders of the mayor, drawn in the form prescribed in the fourth section of this ordinance. He shall, at the end of each six months, certify to the auditor all amounts by him paid for maturing bonds, interest, state or county taxes, or any other purpose; and the auditor shall enter each of said amounts in the ledger under its appropriate head, as provided in section three of this ordinance. He shall, at the close of each fiscal year and when required, lay before the city council a statement of the condition of the treasury, and of all moneys received and paid by him on city account. Whenever he is authorized by the city council to borrow money on the credit of the city, all notes and certificates of indebtedness given therefor shall be signed by the mayor and city treasurer and countersigned by the city clerk, and all such notes and certificates shall be registered in books, kept for that purpose, in the offices of the city treasurer and the city auditor, respectively. Such registers shall describe said notes and certificates by number, date, and amount, the name of person to whom payable, when payable, the rate of interest, and the date of the ordinance or resolution authorizing the same; and no such note or certificate shall be valid until such record shall be made, and the same, when paid, with the date of payment, shall be entered on each of said registers.

SEC. 11. There shall be appointed at the commencement of each municipal term a joint committee on finance, consisting of the mayor, two members of the board of aldermen, and two members of the common council, which committee shall negotiate all loans which shall be authorized by the city council, and shall report the amount to the city treasurer.

SEC. 12. The auditor shall, at the beginning of each financial year, present to the committee on finance, in writing, an estimate of the amount of money necessary to be raised for the current year, under the respective heads of appropriations, and recommending the ways and means for obtaining the same. The committee on finance, after considering the same and making such changes and recommendations as may seem to them desirable, shall lay the same before the city council. All unexpended balances of appropriations, at the close of each fiscal year, shall be covered into the treasury, and no transfer of any unexpended balance shall be made from one appropriation to another. The auditor, at the close of each financial year, shall prepare and

lay before the city council a statement of all the receipts and expenditures of the preceding financial year, giving in detail the amount of appropriation and expenditure for each department. He shall also, at each regular meeting of the city council, present a statement of all expended appropriations, both general and special, with the respective amounts expended and unexpended in each of the same.

He shall annually, in the month of January, make an inventory of the real estate and personal property belonging to the city in the hands of any and all of its officers, agents, or committees, with an estimate of the value thereof in detail, and shall keep a record of all property bought during the year. Such inventory shall be recorded, and an abstract thereof printed in the city report.

Every officer, committee, or agent who shall buy any property for the city, shall immediately notify the auditor in writing, stating what property has been purchased, the date of the purchase, and the price paid.

SEC. 13. The auditor shall, at the close of each financial year, and as much oftener as he shall deem it expedient, examine and audit the accounts of the city treasurer, city clerk, collector of taxes, city marshal, commissioner of highways, city engineer, and all other officers and departments of the city that receive or pay out any money belonging to the city, and for that purpose shall have access to all the books and vouchers in the possession of any of said officers, or of said departments. Said auditor shall not only compare said accounts with the vouchers thereof, but shall ascertain whether all moneys due the city have been collected and accounted for. He shall examine all bonds, notes, and securities in the treasurer's hands belonging to the city, and make report thereof to the city council. The printing of the annual city report shall be under his direction and supervision. Said report shall be prepared and issued on or before March 1st in each year.

SEC. 14. The financial year shall begin and end on the first day of January in each year, and the accounts of all officers of the city shall be made up accordingly.

SEC. 15. Coupon bonds issued by the city of Concord may be registered on the books of the treasurer, and shall thereafter be payable, principal and interest, at the time provided by said bonds only to the registered owner or his order, on the signing

of a receipt therefor, which receipt shall be a voucher for the amount so paid by the treasurer.

SEC. 16. The coupons of bonds registered shall be cut off and destroyed, and a certificate of such destruction shall be recorded on the bond register, and attested by the mayor, city clerk, and treasurer. On the face of the bond shall be printed, "This bond is payable only to —— or order and is transferable only by assignment on the back, and registration thereof in the register of bonds kept by the treasurer," which certificate shall be signed by the treasurer. Bonds so registered shall thereafter be transferable only by assignment in writing on the bond, and registration of such assignment in the bond register. The bond register shall be kept by the treasurer, and in it shall be recorded the number and description of each bond so registered, the name of the owner, the certificate of the destruction of the coupons, blanks for transfers, and blanks in which shall be noted the date and amount of each payment of interest. When the bond is paid in full, the holder shall receipt therefor on the bond register.

SEC. 17. After the close of the present municipal term, the city clerk shall receive a salary of twelve hundred dollars per annum, payable monthly, in full for his services as city clerk, and in lieu of all fees which he shall receive or be entitled to from any source, by virtue of said office. He shall pay over to the city treasurer, in quarterly payments, all fees and perquisites by him received or to which he may be entitled on account of holding said office, and at the same time shall submit to the auditor a statement in detail of the amount so received, from whom, and on what account.

SEC. 18. Immediately after the passage of this ordinance, an auditor shall be elected, who shall hold office until the commencement of the next municipal term and until his successor is chosen and qualified. He shall give bond and be subject to all the provisions of this ordinance, and shall receive, pro rata, the salary provided for in section one of this ordinance.

SEC. 19. So much of the provisions of chapter four, chapter thirty-three, and chapter thirty-seven of the city ordinances as are inconsistent with this ordinance, and all other ordinances and parts of ordinances that are inconsistent with this ordinance, are hereby repealed.

SEC. 20. This ordinance shall take effect upon its passage.

Passed May 12, 1896.

Mayor's Address.

Gentlemen of the City Council :

We have closed the business of the year 1897, and it may be profitable to take a retrospective view of the past, in the hope that it may give definiteness to our knowledge of affairs and better fit us for our duties in the year to come. The fact that the different departments in their relations with each other, as well as with the chief executive, have been entirely harmonious, is a condition of things that cannot be too greatly appreciated by us all. It is but justice for me to say, as I can with all sincerity, that the more I become acquainted with the plans and purposes of the heads of departments, the more fully I recognize their honest endeavors to faithfully serve the city that has placed them in their positions of trust and responsibility.

With two or three exceptions, all the departments have kept their expenditures within the appropriations, and these exceptions are in great part cases where the excess of expenditure could not have been anticipated. That of streets and highways, in spite of the unprecedented rains that worked so much havoc at three different times, has come to the end of the year with a small unexpended balance, December having proved to be a month requiring an exceptionally small outlay. I want to recommend with all urgency that the names of the streets be placed at all the corners, and that this duty be attended to at the earliest possible moment. In this connection, it may be mentioned that the commissioner of highways should be provided with a proper and convenient stable. It would, in my judgment, be better for the city to own and work more teams of its own. As I stated last month, more than a mile of macadamized road has been made the past year.

The extraordinary repairs necessitated by bad breaks in the

sewers at the time of the heavy rains exhausted the regular appropriations in the sewer department and necessitated the using of sufficient funds from the precinct appropriation for street lighting, and there was no increase of indebtedness to the precinct on this account.

The chief engineer's report shows that the losses by fire in the precinct aggregate \$10,016.30, the net loss being but \$2,768.28. Great saving from the damaging use of water has been effected by the use of the chemical engine, and we can but be thankful for the small loss sustained the past year. It is to be hoped that with such a showing the underwriters may see their way clear to make us a reduction in the rate of insurance. From thorough inspection, I can state that everything connected with the fire department is kept in the very best order, the horses are well trained, and every appliance is kept in readiness for immediate response to a call. The amount that had to be expended over the appropriation for this department, and to be provided for, is accounted for almost wholly by three items which could not be foreseen when the estimates were made. A new set of flues was required in the Central Fire Station, which caused the expenditure of \$56. An alarm box at the new workshops at the railway was put in at a cost of \$130, and the Governor Hill steamer, which was damaged at the Bradford fire, had to be repaired at an expense of \$126. These three items alone aggregate \$312, or nearly the entire amount of the additional appropriation of \$350.

Two small additional appropriations will need to be made, on account of salaries. In appropriating for the salary of auditor, the appropriation was made at the reduced salary, to take effect at the beginning of the fiscal year, but, as the auditor was paid at the old rate up to the 26th of January, the difference will have to be provided for by an appropriation at this time. This is, therefore, not an increase. The sum of \$2,700 was appropriated for the pay of the assessors, who receive a per diem compensation. Their aggregate bills are \$130 in excess of this appropriation.

The appropriation for parks has been exceeded by about \$400. Had the original estimates of the park commissioners

for Rollins park and parks and commons been granted by the finance committee and the city council, the expenditures in their department would have required no additional appropriation.

In our sanitary condition and in the public health we have been greatly favored. Nothing at all serious has interfered with our physical well-being, and we constantly reap the benefit of the "ounce-of-prevention" policy, which is, to keep the city clean and wholesome. Money used for this purpose is always well spent.

Careful observation leads me to believe that the removal of the police department from the domain of politics has been a good thing for the efficiency of our service. I believe the present force is adequate to the protection of our city, and that there will have to be no increase of appropriations in this department.

Contracts made with the Concord Gas company have made quite a saving in the cost of lighting our streets and public buildings. We are very well lighted now, and it is desirable that there should be but few calls for additional street lamps the coming year.

The income from the water-works continues to be satisfactory, and in their improvements for the year they have completed the core wall from the Hopkinton road to the south side of the pond, making it secure at the outlet, so that there need be no apprehension of danger from high water. During the great freshets of the past year, the management of affairs was fully equal to the demand for safety, and it may be of interest to know that water has fallen over the spill-way one hundred and seven days of the year.

Repairs on the roof of the city library are an immediate necessity, and demands in this line will be cheerfully met because of the ever-increasing excellence and efficiency with which all affairs connected with this admirable institution are carried on.

The cemetery commission and the committee on cemeteries, having had a meeting to confer together on the purchase of the Bradley lot to enlarge Blossom Hill cemetery, reported in favor of that purchase, and the city council accepted the report. As

this movement is a provision for the long future, it seems entirely proper that a twenty-year bond should be issued to provide for its payment. This lot includes about thirty acres, and the sum paid is \$5,000. In this connection, I would suggest that the note for \$1,400, carried by the park commissioners for an addition to the White park, be included in the bond.

Our city treasurer has demonstrated the fact that our credit stands high, by the sale of $3\frac{1}{2}$ per cent. bonds, to the amount of \$25,000, for the South End sewer extension, at such a premium that it nets the city a $3\frac{1}{2}$ per cent. rate. I wish to further suggest, that the city pay a fixed rate of interest for money left in trust for the cemeteries, from the time it is received. By the present arrangement, such funds are liable to lie idle till they can be safely invested, and, as the city will probably be always a borrower of money, it would seem to be well to use cemetery funds, and become directly responsible for them.

The city engineer and his assistants have been kept very busy during the year, and largely in the work of sewers. For the immediate future, the work of defining and re-establishing street lines will be pressing.

We began the new year with a floating indebtedness of \$25,000. Before the taxes of 1897 became available, it was necessary to make an additional temporary loan of \$15,000. These loans, aggregating \$40,000, have both been paid, and, except in anticipation of the taxes of 1898, it will not be necessary to borrow any money this year. The bonded indebtedness of the city has been reduced as follows: \$10,000 of the Water Precinct bonds, maturing November 1, 1897; \$15,000 of the Union School District bonds, maturing July 1, 1897; \$5,000 of the Memorial Arch bonds, maturing July 1, 1897; and \$500 of School District No. 20 bonds, maturing July 1, 1897, have been paid, reducing the interest charges for the coming year by more than \$1,200.

An effort will be made by the finance committee in preparing the appropriations for the current fiscal year to secure a still further reduction in the tax rate of the city. In inviting the departments to make their estimates for this year, they have been reminded that this is the desire of the people of the city, and they

have been requested to ask for no appropriation for improvements or new work where these undertakings can be postponed without detriment to the city. Since the beginning of the new year, there have been many inaugurations of new city governments in different New England cities, and the burden of the song, in nearly all cases, seems to be greater indebtedness and a constantly increasing tax rate. This condition of affairs in so many other places makes us especially appreciate the fact that both our indebtedness and our tax rate are on the descending scale.

The report of the tax collector, that comes before us to-day, showing that but \$356.45 of the 1896 tax remains uncollected, of which \$285.57 is secured by real estate, is a most creditable one. The commissions of the tax collector paid for collections of 1896 and 1897 taxes, exceed the appropriation by \$16.92; but the commissions on \$8,000 of the taxes of 1896, collected in December, 1896, were paid from the appropriation for 1897. The commissions on collections made this year would come within the appropriation.

While we have no official connection whatever with the various industries and business enterprises which engage our citizens, they are the concerns that make up the city, for whose government we are at present responsible, and so they are of real concern to us. Some of our business interests have not been as prosperous for the past year as we could wish. Concord has suffered more from business depression during the last two years than at any time since the panic of 1893, but no more than other localities in the state.

While looking hopefully to the future for a revival of business, it is a cause of especial congratulation that we have been able to look upon the growth of a great industry in this city, which, when completed, is to add largely to the population and the material wealth of the capital. It is all the more gratifying that it has come at a time when other industries have been depressed by the financial situation of the past few years. It has come naturally and easily, and largely through the efforts of some of our citizens, who have long been identified with Concord. It is, therefore, with pleasure that I call attention to the

growth of the railway interests here, which for two years past have gone on so quietly, in a vicinity just a little removed from daily public observation, that probably not many of our citizens realize their great importance.

In order that this growth may be better understood, I have compiled certain facts in relation thereto. I am indebted to Hon. B. A. Kimball for the data.

Concord is, as we all know, a convenient central station between Boston and the termini of its three upper roads. It is likewise convenient to various branch lines which diverge from the main stems. For many trains it is the natural terminal of all these roads. It is a point for exchange of train crews, for the renewal of fuel and material, and for the repair of engines, cars, and all other equipments.

These opportunities existed before the local roads were leased to the Boston & Maine company, but it was not until these roads were consolidated into one system between Boston and the Canada line on the north, and Boston and the Connecticut river on the west, that the public could secure the full benefits that the situation offered, and through reduction of operating expenses enjoy the better service which came with the union of the roads.

Everything favored the development of the railway interests at this point. Land contiguous to the existing railway tracks was vacant, and there was abundant space for growth. The removal of the railway buildings north of the passenger station, and the enlargement of the yard at the north end of the city, presented opportunity for new industries in that locality.

This, then, was the situation when the Boston & Maine company, in 1895, took a lease of the Concord & Montreal Railroad, and began a reorganization of its system between Boston, Worcester, Portsmouth, northern New Hampshire, Vermont, and Canada—a reorganization tending to public convenience and to economical management. This reorganization made Concord a clearing station for the traffic between Boston, Canada, northern New England, and many Western states. Out of this determination grew the construction, at a cost of about \$150,000, of the great freight yard lying east of the passenger

station, and occupying an area of fifty acres. This yard is operated by use of switching engines at either end. The operating force of the yard is composed of eleven switching crews, and such service requires the labor of one hundred and ten men. A special independent telegraph station has been established in this yard, for the prompt and safe handling of the traffic of this valley.

The total length of railway side-tracks within the city limits is forty and one-half miles, of which about one half has been built since the date of the lease to the Boston & Maine Railroad.

At the southern approach to the whole railway yard, a new signal and switching system is in process of installation, and another will shortly be put in at the northerly approach, and thus will be completed the most efficient railway freight yard in New England. The cars that are handled here daily number about 1,400, without including those employed in the local work of Concord. So complete is this freight-train service, so widespread are the Boston & Maine connections, and so much available land borders on the railway tracks, that I cherish the hope that manufacturing plants of various kinds may seek locations in so advantageous a place as Concord.

The central situation which Concord holds in this great railway system has been more generously recognized in the construction of the new and extensive repair shops. They occupy an area of five acres, and have six and one-tenth miles of side-track. The yard in which they stand encloses more than twenty-eight acres. In building the shops, large quantities of granite (mostly from Concord quarries) were used. These shops have more than twice the area under roof of all the former railway shops of the Concord and Northern railroads, and by the use of modern machinery and methods their capacity has been increased in still greater proportion. This capacity is three or four times as great as was that of the old shops, and the new buildings are so arranged that this capacity may be doubled whenever enlargement becomes desirable.

The shops have been built with an outlook to the future. The best features of the most advanced plants in the country

were incorporated in this plant, and they have had from their inception the intelligent personal care and critical monthly inspection of President Tuttle, who manifests the deepest interest therein.

Some details relating thereto may be permissible. The present boiler capacity is 600 horse-power. There are four steam engines of various patterns, and an electric-light plant which furnishes power for the shops, and light for the shops, yards, and stations from Langdon street to Penacook street. There are two electric cranes, capable of lifting the largest engine and carrying it as if it were a toy. There is an organized fire department (a chief engineer, two assistants, and four hose companies of eight men each), with high-pressure city water service, and its own fire-alarm system will be provided.

It takes one locomotive and a crew of men to wait upon the new shops. There are now employed about six hundred men, and when the shops are fully occupied, the number will be from eight hundred to one thousand men. It is expected that fully one half of the entire Boston & Maine equipment will be repaired at these shops. When we consider those who are employed by the railroad in this city, and those who are directly and indirectly dependent upon them for their support, we shall see that Concord's population who have a connection with this great railroad plant numbers from four thousand to five thousand people.

In this connection, attention should be called to the railroad department of the Young Men's Christian Association, to the establishment and support of which, in the two years just past, the Boston & Maine management has contributed nearly \$6,000. The annual cost of maintenance to the company is something more than \$2,000. The association provides baths and dormitories, as well as evening classes in the English branches, mechanical drawing, and lectures on practical subjects throughout the year. The membership of the association is 318; those enrolled in evening classes number about 100, and the average attendance on Sunday services is 42. The average daily visitors to the building are about 100. Opportunities are provided for physical, mental, and spiritual improvement, and evidences

of moral gain might be cited here if it were desirable to do so.

At the request of local granite interests, the railway engineers have nearly completed surveys for a track to the quarries on Rattlesnake hill, which, when constructed, will enable these quarries to successfully compete with tide-water ledges.

To recapitulate, let me say that the sum expended in constructing the great freight yard and the new shops exceeds half a million dollars.

The monthly pay-roll of the Boston & Maine company at Concord is \$59,515.19. The yearly pay-roll is \$714,182.28.

When the shops are fully equipped with machinery and tools, this amount will be greatly increased.

I have expressed, in a previous paragraph, some doubt whether these expenditures and improvements have yet won a full measure of appreciation from our citizens, but I know that as time goes on their full advantages and helps to other growth and greater trade will be apparent to all. It would seem that they have come as a direct fruit of the lease and consolidation, and that without the consolidation they would not have come at all. They have come without struggle or rivalry with other towns. So we may congratulate ourselves that no enmities have been created, and that there will be no bitter harvests to be garnered hereafter.

I am told, by one who has kept a record, that between eighty and ninety tenements have been built the past year, and one of the finest of business blocks, with complete modern improvements, has been recently finished. All these signs of progress are indications of a sound prosperity that may give us a well-grounded hope for the well-being of the city that is so much to us all.

TABLES OF VITAL STATISTICS.

VITAL STATISTICS.

Births Registered in the City of Concord, N. H., for the Year ending December 31, 1897.

JANUARY.

Date—1897.	Name of the child (if any).	Sex and condition.			Maiden name of mother.	Residence of parents.	Occupation of father.	Birthplace of father.	Birthplace of mother.
		Male	Female.	Living or still- born.	No. of child, 1st, 2d, etc.				
						Color of par- ents.
